SECOND QUARTER REPORT
FOR THE 13 AND
26-WEEK PERIODS
ENDED OCTOBER 1, 2016

Table of Contents

- 3. Management's Discussion and Analysis
- 22. Interim Condensed Consolidated Financial Statements and Notes
- 36. Investor Information

Management’s Discussion and Analysis

The following Management’s Discussion and Analysis (“MD&A”) is prepared as at November 8, 2016 and is based primarily on the unaudited interim condensed consolidated financial statements of Indigo Books & Music Inc. (the “Company” or “Indigo”) for the 13 and 26-week periods ended October 1, 2016 and September 26, 2015. The Company’s unaudited interim condensed consolidated financial statements and accompanying notes are reported in Canadian dollars and have been prepared in accordance with International Accounting Standard (“IAS”) 34, “Interim Financial Reporting.” The same accounting policies and methods of computation as those used in the preparation of the fiscal 2016 Annual Report were followed in the preparation of these unaudited interim condensed consolidated financial statements.

These unaudited interim condensed consolidated financial statements do not contain all disclosures required by International Financial Reporting Standards (“IFRS”) for annual financial statements. This MD&A should be read in conjunction with the unaudited interim condensed consolidated financial statements and notes contained in this Quarterly Report, the audited annual consolidated financial statements and accompanying notes for the 53-week period ended April 2, 2016, and the MD&A included in the Company’s fiscal 2016 Annual Report. The Annual Report and additional information about the Company, including the Annual Information Form, can be found on SEDAR at www.sedar.com.

Overview

Indigo is Canada’s largest book, gift, and specialty toy retailer, operating stores in all ten provinces and one territory in Canada and offering online sales through the *indigo.ca* website and the Company’s mobile applications. As at November 8, 2016, the Company operated 89 superstores under the banners *Chapters* and *Indigo* and 124 small format stores under the banners *Coles*, *Indigospirit*, *SmithBooks*, and *The Book Company*. During the second quarter of fiscal 2017, the Company decided to operate a previously-opened pop-up store on a permanent basis. The Company also has a 50% interest in Calendar Club of Canada Limited Partnership (“Calendar Club”), which operates seasonal kiosks and year-round stores in shopping malls across Canada.

The Company operates a separate registered charity under the name Indigo Love of Reading Foundation (the “Foundation”). The Foundation provides new books and learning material to high-needs elementary schools across the country through donations from Indigo, its customers, suppliers, and employees.

The weighted average number of common shares outstanding for the second quarter of fiscal 2017 was 26,284,648 compared to 25,892,787 for the same period last year. As at November 8, 2016, the number of outstanding common shares was 25,950,151 with a book value of \$211.2 million. The number of common shares reserved for issuance under the employee stock option plan was 3,392,523 as at November 8, 2016. As at October 1, 2016, there were 2,211,500 stock options outstanding of which 934,525 were exercisable.

Results of Operations

The following table summarizes the Company's consolidated results of operations for the periods indicated. The classification of financial information presented below is specific to Indigo and may not be comparable to that of other retailers.

(millions of Canadian dollars)	13-week period ended October 1, 2016		13-week period ended September 26, 2015		26-week period ended October 1, 2016		26-week period ended September 26, 2015	
	Revenue	%	Revenue	%	Revenue	%	Revenue	%
Revenue	216.9	100.0	205.7	100.0	410.0	100.0	390.6	100.0
Cost of sales	(119.2)	55.0	(112.1)	54.5	(226.4)	55.2	(215.6)	55.2
Cost of operations	(70.5)	32.5	(67.9)	33.0	(138.0)	33.7	(133.2)	34.1
Selling, administrative, and other expenses	(22.6)	10.4	(21.8)	10.6	(47.0)	11.4	(40.0)	10.2
Adjusted EBITDA¹	4.6	2.1	3.9	1.9	(1.4)	0.3	1.8	0.5

¹ Earnings before interest, taxes, depreciation, amortization, impairment, asset disposals, and equity investment.

Revenue Increased Despite Operating Fewer Stores

Total consolidated revenue for the 13-week period ended October 1, 2016 increased \$11.2 million or 5.4% to \$216.9 million from \$205.7 million for the 13-week period ended September 26, 2015. Higher revenue was driven by continued growth in all sales channels across a number of product categories. General merchandise sales continued to show double-digit growth, with units increasing across a number of categories. Book sales remained solid as sales of *Harry Potter and the Cursed Child* offset the declining trend for adult colouring books.

Online revenue increased by \$3.0 million or 12.4% to \$27.2 million for the 13-week period ended October 1, 2016 compared to \$24.2 million in the same period last year. Online sales maintained strong growth for the period, led by the release of *Harry Potter and the Cursed Child* and continued double-digit increases in general merchandise sales.

Total comparable sales, which includes online sales, increased by 5.1% in the second quarter. Comparable retail store sales for the second quarter increased 3.8% in superstores and 4.9% in small format stores. The increases were mainly driven by the reasons discussed above. Total comparable sales is based on comparable retail store sales and includes online sales for the same period. Comparable retail store sales are defined as sales generated by stores that have been open for more than 12 months on a 52-week basis. These measures exclude sales fluctuations due to store openings and closings, permanent relocation, and material changes in square footage, and they are key performance indicators for the Company. As at October 1, 2016, the Company operated one less superstore and two fewer small format stores compared to September 26, 2015.

Revenue from other sources includes revenue generated through cafés, rewards card sales, revenue from unredeemed gift cards (“gift card breakage”), revenue from unredeemed plum points (“plum breakage”), corporate sales, and revenue-sharing with Rakuten Kobo Inc. (“Kobo”). Revenue from other sources increased by \$0.4 million or 5.6% to \$7.6 million for the 13-week period ended October 1, 2016 compared to \$7.2 million in the same period last year, primarily driven by higher gift card breakage. Gift card breakage increased by \$0.5 million based on historical redemption rates.

On a fiscal year-to-date basis, total consolidated revenue increased by \$19.4 million or 5.0% to \$410.0 million compared to \$390.6 million for the same period last year. As discussed above, the increase was driven by continued strong sales growth across many product categories. Key areas of sales growth included lifestyle, paper, and toy categories. Year-to-date total comparable sales, which includes online sales, increased 6.1%. Year-to-date comparable retail store sales increased 5.6% for superstores and increased 6.2% in small format stores for the same reasons discussed above.

Revenue by channel is highlighted below:

(millions of Canadian dollars)	13-week period ended October 1, 2016	13-week period ended September 26, 2015	% increase	Comparable sales % increase
Superstores	151.6	145.5	4.2	3.8
Small format stores	30.5	28.8	5.9	4.9
Online (including store kiosks)	27.2	24.2	12.4	12.4
Other	7.6	7.2	5.6	N/A
Total	216.9	205.7	5.4	5.1

Revenue by product line is as follows:

	13-week period ended October 1, 2016	13-week period ended September 26, 2015	26-week period ended October 1, 2016	26-week period ended September 26, 2015
Print ¹	63.1%	65.1%	62.9%	65.4%
General merchandise ²	32.6%	30.3%	33.3%	30.5%
eReading ³	1.2%	1.6%	1.3%	1.7%
Other ⁴	3.1%	3.0%	2.5%	2.4%
Total	100.0%	100.0%	100.0%	100.0%

¹ Includes books, calendars, magazines, newspapers, and shipping revenue.

² Includes lifestyle, paper, toys, music, DVDs, electronics, and shipping revenue.

³ Includes eReaders, eReader accessories, Kobo revenue share, and shipping revenue.

⁴ Includes cafés, rewards, gift card breakage, Plum breakage, and corporate sales.

Reconciliations between total revenue and comparable sales are provided below:

(millions of Canadian dollars)	13-week period ended October 1, 2016	13-week period ended September 26, 2015
Total retail store revenue	182.1	174.3
Total online revenue	27.2	24.2
Adjustments for stores not in both fiscal periods	(10.5)	(9.3)
Total comparable sales	198.8	189.2

(millions of Canadian dollars)	Superstores		Small format stores	
	13-week period ended October 1, 2016	13-week period ended September 26, 2015	13-week period ended October 1, 2016	13-week period ended September 26, 2015
Total revenue	151.6	145.5	30.5	28.8
Adjustments for stores not in both fiscal periods	(8.5)	(7.7)	(2.0)	(1.6)
Comparable retail store sales	143.1	137.8	28.5	27.2

Cost of Sales Increased Compared to Last Year

Cost of sales includes the landed cost of goods sold, online shipping costs, inventory shrink and damage reserve, less all vendor support programs. Cost of sales increased \$7.1 million to \$119.2 million for the 13-week period ended October 1, 2016, compared to \$112.1 million for the same period last year. The increase was driven by higher retail and online sales volumes, as discussed above. As a percent of total revenue, cost of sales increased by 0.5% to 55.0%, compared to 54.5% for the same period last year. Margin rate declined due to higher discounts

in the current period compared to the same period last year. Higher discounts were primarily due to promotional discounting of *Harry Potter and the Cursed Child* and increased markdowns on slow-moving general merchandise.

On a fiscal year-to-date basis, cost of sales increased by \$10.8 million or 5.0% to \$226.4 million compared to \$215.6 million for the same period last year for the same reasons discussed above. Year-to-date cost of sales as a percent of total revenue remained flat at 55.2% for the same period last year.

Cost of Operations (as a Percent of Revenue) Decreased Compared to Last Year

Cost of operations includes all store, store support, online, and distribution centre costs. Cost of operations increased \$2.6 million to \$70.5 million for the 13-week period ended October 1, 2016, compared to \$67.9 million for the same period last year. Retail store operating costs were \$2.0 million higher compared to the same period last year, driven by higher labour and occupancy costs. Labour costs increased by \$0.8 million due to higher wage rates while occupancy costs increased by \$0.7 million due to store maintenance and higher utility fees from a warmer summer. As a percent of total revenue, cost of operations decreased by 0.5% to 32.5% this year, compared to 33.0% for the same period last year, driven by higher revenue in the current year and the Company's continued focus on improving productivity.

On a fiscal year-to-date basis, cost of operations increased by \$4.8 million or 3.6% to \$138.0 million compared to \$133.2 million for the same period last year. As discussed above, the increase was driven by higher labour and occupancy costs. Year-to-date cost of operations decreased by 0.4% to 33.7%, compared to 34.1% for the same period last year.

Selling, Administrative, and Other Expenses (as a Percent of Revenue) Decreased Compared to Last Year

Selling, administrative, and other expenses include marketing, head office costs, and operating expenses associated with the Company's strategic initiatives. These expenses increased \$0.8 million to \$22.6 million for the 13-week period ended October 1, 2016, compared to \$21.8 million for the same period last year. Expenses in the comparative prior year period were partially offset by a \$2.3 million foreign exchange gain. In the current period, the Company had a foreign exchange gain of \$0.3 million. The lower gain in the current period was driven by lower U.S. dollar cash holdings and a steady USD/CAD exchange rate compared to the same period last year, when the U.S. dollar strengthened significantly against the Canadian dollar. Lower U.S. dollar cash holdings in the

current period resulted from implementation of a hedging program during the first quarter of fiscal 2017. As a percent of total revenue, selling, administrative, and other expenses decreased by 0.2% to 10.4%, compared to 10.6% for the same period last year.

On a fiscal year-to-date basis, selling, administrative, and other expenses increased \$7.0 million to \$47.0 million compared to \$40.0 million in the same period last year. In the same period last year, the Company received one-time net proceeds of \$4.5 million related to exiting a lease, without which current year expenses would only have increased by \$2.5 million. Higher expenses were driven by the same reasons discussed above and by the timing of marketing campaigns. The Company had a foreign exchange gain of \$0.2 million in the current year compared to a foreign exchange gain of \$2.4 million in the same period last year. Year-to-date selling, administrative, and other expenses as a percent of total revenue increased 1.2% to 11.4% compared to 10.2% in the same period last year.

Adjusted EBITDA Improved Compared to Last Year

Adjusted EBITDA, defined as earnings before interest, taxes, depreciation, amortization, impairment, asset disposals, and equity investment improved by \$0.7 million to \$4.6 million for the 13-week period ended October 1, 2016, compared to \$3.9 million for the same period last year. Adjusted EBITDA as a percent of revenue improved to 2.1% this period compared to 1.9% for the same period last year.

On a fiscal year-to-date basis, adjusted EBITDA decreased \$3.2 million to a \$1.4 million loss compared to a \$1.8 million profit in the same period last year. Year-to-date adjusted EBITDA as a percent of total revenue was a 0.3% loss compared to a 0.5% profit in the same period last year. As discussed above, the decrease was driven by the one-time impact of receiving \$4.5 million from exiting a lease in the same period last year. Excluding this impact, adjusted EBITDA increased \$1.3 million compared to the same period last year.

Depreciation and Amortization Increased Compared to Last Year

Depreciation and amortization increased \$0.2 million to \$6.0 million for the 13-week period ended October 1, 2016 compared to \$5.8 million for the same period last year. Capital expenditures in the second quarter of fiscal 2017 totalled \$6.7 million compared to \$6.1 million last year as the Company continued to implement changes across its retail outlets and invest in its digital business. Capital expenditures in the second quarter of fiscal 2017 included \$3.1 million for construction, renovations and equipment, \$3.1 million for intangible assets (primarily application software and internal development costs),

and \$0.5 million for technology equipment. None of the capital expenditures were financed through leases.

On a fiscal year-to-date basis, depreciation and amortization increased by \$0.2 million to \$12.0 million compared to \$11.8 million in the same period last year. Year-to-date, the Company has spent \$14.1 million on capital expenditures compared to \$9.7 million last year for the same reasons discussed above and also due to the opening of a new superstore in the first quarter of fiscal 2017. Capital expenditures for the current year included \$8.0 million for retail store renovations and equipment, \$5.1 million for intangible assets (primarily application software and internal development costs), and \$1.0 million for technology equipment. None of the capital expenditures were financed through leases. The Company had no capital asset impairments in the current or comparative periods.

Net Interest Income Increased Compared to Last Year

The Company recognized net interest income of \$0.4 million for the 13-week period ended October 1, 2016 compared to \$0.3 million for the same period last year. Compared to the same period last year, the Company maintained a higher average cash balance for the period. The Company nets interest income against interest expense.

On a fiscal year-to-date basis, the Company recognized net interest income of \$0.9 million compared to \$0.7 million in the same period last year for the same reasons discussed above.

Loss from Equity Investment Increased Compared to Last Year

The Company uses the equity method to account for its investment in Calendar Club and recognizes its share of Calendar Club's earnings and losses as part of consolidated net earnings and losses. Calendar Club is a seasonal operation that is dependent on the December holiday sales season to generate revenue. The Company recognized a net loss from Calendar Club of \$0.4 million in the 13-week period ended October 1, 2016 compared to a net loss of \$0.2 million for the same period last year.

On a fiscal year-to-date basis, Indigo recognized net loss from Calendar Club of \$0.9 million compared to net loss of \$0.7 million in the same period last year.

Income Tax Recovery Increased Compared to Last Year

The Company recognized net income tax recovery of \$0.2 million for the 13-week period ended October 1, 2016 compared to recognizing no income tax for the 13-week period ended September 26, 2015. The current income tax recovery relates to an increase in deferred tax assets. In the same period last

year, the Company recorded a valuation allowance against deferred tax assets based on management's best estimate of future taxable income that the Company expected to achieve, which resulted in a full offset between the increases in gross deferred tax asset and valuation allowance. Based on the improved underlying performance of the business, the Company's forecast improved during fiscal 2016, which resulted in a full reversal of the Company's valuation allowance in the third quarter of fiscal 2016. The Company used a tax rate of 26.8% to calculate income tax recovery for the second quarter of fiscal 2017. On the basis of a full 52-week period, the Company does not expect to pay income tax, as non-capital loss carryforwards can be utilized to offset taxable income.

On a fiscal year-to-date basis, Indigo recognized net income tax recovery of \$3.3 million compared to recognizing no income tax in the same period last year for the same reasons discussed above.

Reduced Net Loss Compared to Last Year

The Company recognized a net loss of \$1.2 million for the 13-week period ended October 1, 2016 (\$0.04 net loss per common share), compared to a net loss of \$1.8 million (\$0.07 net loss per common share) for the same period last year. The Company was able to translate a revenue increase into a lower net loss for the period due to improved productivity.

On a fiscal year-to-date basis, the Company recognized a net loss of \$10.2 million (\$0.39 net loss per common share), compared to a net loss of \$10.8 million (\$0.42 net loss per common share) in the same period last year. As discussed above, improved productivity for the period, in addition to a higher income tax recovery, resulted in a year-over-year reduction in net loss despite the impact of the Company's one-time proceeds from disposal of a lease in the prior year period.

Other Comprehensive Income

During the first quarter of fiscal 2017, the Company implemented a formal hedging policy to mitigate foreign exchange risk, entering into contracts to manage the currency fluctuation risk associated with forecasted U.S. dollar expenses. All contracts entered in fiscal 2017 have been designated as cash flow hedges.

During the 13-week period ended October 1, 2016, the Company entered into seven foreign exchange forward contracts with a total notional amount of C\$43.4 million to buy U.S. dollars and sell Canadian dollars. On a fiscal year-to-date basis, the Company entered into 13 forward contracts with a total notional amount of C\$86.5 million to buy U.S. dollars and sell Canadian dollars.

These contracts were entered into in order to manage the currency fluctuation risk associated with forecasted U.S. dollar payments, primarily for inventory purchases, and have been designated as cash flow hedges for accounting purposes.

Accordingly, the effective portion of the change in the fair value of the foreign exchange forward contracts that are designated and qualify as cash flow hedges is recognized in other comprehensive income until related payments have been made in future accounting periods. Associated gains and losses recognized in other comprehensive income will be reclassified to earnings in the periods when the hedged item is recognized in earnings.

As at October 1, 2016, the Company had five remaining foreign currency forward contracts in place, representing a total notional amount of C\$45.9 million. These contracts extend over a period not exceeding 12 months. The total fair value of these contracts as at October 1, 2016 was an unrealized net gain of \$0.4 million. During the 13 and 26-week periods ended October 1, 2016, net gains of \$0.4 million and \$0.3 million, respectively, were reclassified from other comprehensive income to inventory and expenses.

Seasonality and Second Quarter Results

Indigo's business is highly seasonal and follows quarterly sales and profit (loss) fluctuation patterns, which are similar to those of other retailers that are highly dependent on the December holiday sales season. A disproportionate amount of revenues and profits are earned in the third quarter. As a result, quarterly performance is not necessarily indicative of the Company's performance for the rest of the year. The following table sets out revenue, net earnings (loss) attributable to shareholders of the Company, basic and diluted earnings (loss) per share for the preceding eight fiscal quarters.

(millions of Canadian dollars, except per share data)	Fiscal quarters							
	Q2	Q1	Q4	Q3	Q2	Q1	Q4	Q3
	Fiscal 2017	Fiscal 2017	Fiscal 2016	Fiscal 2016	Fiscal 2016	Fiscal 2016	Fiscal 2015	Fiscal 2015
Revenue	216.9	193.1	220.4	383.2	205.7	184.9	186.2	339.4
Total net earnings (loss)	(1.2)	(9.0)	(13.4)	52.8	(1.8)	(9.0)	(13.9)	33.0
Basic earnings (loss) per share	\$ (0.04)	\$ (0.34)	\$ (0.51)	\$ 2.03	\$ (0.07)	\$ (0.35)	\$ (0.54)	\$ 1.28
Diluted earnings (loss) per share	\$ (0.04)	\$ (0.34)	\$ (0.51)	\$ 2.02	\$ (0.07)	\$ (0.35)	\$ (0.54)	\$ 1.27

Overview of Consolidated Balance Sheets

Total Assets

As at October 1, 2016, total assets increased \$37.0 million to \$606.5 million, compared to \$569.5 million as at September 26, 2015. The increase was driven by higher deferred tax assets, property, plant, and equipment, cash and cash equivalents, and inventories. The \$10.8 million increase in deferred tax assets was driven by the previously discussed reversal of the Company's valuation allowance. The \$9.3 million increase in property, plant and equipment was driven by retail store investments, enhancements to Indigo's digital platforms, and productivity initiatives. Cash and cash equivalents increased by \$7.7 million primarily due to an increase in cash flows from operating activities being only partially offset by inventory and financing activities. The inventories increase of \$7.3 million was driven by higher trade book inventory as the Company has taken a larger position on key titles in advance of the holiday season.

On a fiscal year-to-date basis, total assets increased by \$22.5 million to \$606.5 million compared to \$584.0 million as at April 2, 2016. The increase was primarily driven by higher inventories and accounts receivable, partly offset by lower cash and cash equivalents. The \$46.5 million increase in inventory and \$32.6 million decrease in cash and cash equivalents are consistent with the seasonal nature of the business as the Company builds inventories in advance of the holiday season. The \$10.6 million increase in accounts receivable was driven by a \$7.4 million loan to Calendar Club. Due to the seasonal nature of the business, Indigo loans cash to Calendar Club for working capital requirements and Calendar Club repays the loans once profits are generated in the third quarter.

Total Liabilities

As at October 1, 2016, total liabilities increased \$1.8 million to \$269.9 million, compared to \$268.1 million as at September 26, 2015. Unredeemed gift card liability increased by \$2.7 million as gift card sales have increased compared to the same period last year. Deferred revenue decreased by \$0.6 million as a marketing campaign in the current period drove a greater number of plum point redemptions compared to the same period last year.

On a fiscal year-to-date basis, total liabilities increased \$29.9 million to \$269.9 million compared to \$240.0 million as at April 2, 2016. Current and long-term accounts payable and accrued liabilities increased by \$35.6 million, which is consistent with the seasonal growth in inventories leading up to the holiday season. The increase was partially offset by a \$6.0 million reduction in unredeemed gift cards as customers continued to redeem gift cards purchased during the 2015 holiday season.

Total Equity

Total equity at October 1, 2016 increased \$35.2 million to \$336.6 million, compared to \$301.4 million as at September 26, 2015. The increase in total equity was driven by total net earnings of \$29.2 million over the last four quarters. On a fiscal year-to-date basis, share capital increased by \$4.7 million and contributed surplus increased \$1.0 million. Share capital increased due to the exercise of stock options, while contributed surplus increased due to the issuance of stock options.

Working Capital and Leverage

The Company's working capital position usually declines from the end of its fiscal year until the third fiscal quarter due to the seasonal nature of the business. The Company relies on cash and accounts payable to fund the business before generating a disproportionate amount of cash during the December holiday season.

The Company reported working capital of \$204.9 million as at October 1, 2016, compared to \$191.2 million as at September 26, 2015 and \$217.9 million as at April 2, 2016. The increase compared to the same period last year was driven by higher current assets. As previously discussed, cash and cash equivalents increased by \$7.7 million while inventories increased by \$7.3 million.

The Company's leverage position (defined as Total Liabilities to Total Equity) declined slightly to 0.8:1 at October 1, 2016 compared to 0.9:1 as at September 26, 2015 as total liabilities grew at a slower rate than total equity. The Company's leverage position as at October 1, 2016 increased slightly compared to 0.7:1 as at April 2, 2016 due to the seasonal nature of the business.

Overview of Consolidated Statements of Cash Flows

Cash and cash equivalents increased \$7.1 million for the 13-week period ended October 1, 2016 compared to a decrease of \$0.5 million in the same period last year. The increase in the current period was driven by cash flows generated from operating activities of \$12.2 million, financing activities of \$0.5 million, and the effect of foreign currency exchange rate changes on cash and cash equivalents of \$0.7 million. These increases were partially offset by cash used for investing activities of \$6.3 million. On a fiscal year-to-date basis, cash and cash equivalents decreased by \$32.6 million due to the seasonal nature of the business, as the Company purchases inventory in advance of the holiday season.

Cash Flows from Operating Activities

The Company generated cash flows of \$12.2 million from operating activities in the 13-week period ended October 1, 2016 compared to generating \$2.1 million

in the same period last year, an increase of \$10.1 million. The Company generated \$7.8 million of cash from working capital this year compared to generating \$1.0 million of cash from working capital in the same period last year, primarily due to the timing of quarter end.

On a fiscal year-to-date basis, cash flows used for operating activities increased by \$0.9 million to \$21.7 million in the current period compared to \$20.8 million used in the same period last year. The Company used \$3.3 million of deferred tax assets in the current period but had no such usage in the same period last year due to the offset from the previously discussed valuation allowance.

Cash Flows Used for Investing Activities

The Company used cash flows of \$6.3 million for investing activities in the 13-week period ended October 1, 2016 compared to using \$5.8 million in the same period last year, an increase of \$0.5 million. The Company spent \$6.7 million on capital projects compared to spending \$6.1 million in the same period last year. The Company continues to transform its retail outlets and is investing in its digital business with back-end productivity initiatives such as improved distribution centre automation and a new product information management system.

On a fiscal year-to-date basis, the Company used cash flows of \$13.1 million for investing activities compared to using \$9.2 million in the same period last year, an increase of \$3.9 million. The Company spent \$14.1 million on capital projects compared to spending \$9.7 million in the same period last year. As discussed above, the Company is investing in a number of initiatives to improve productivity and enhance the customer experience. Cash was also used for the construction of a new superstore which opened during the first quarter of fiscal 2017.

Cash was used for capital projects as follows:

(millions of Canadian dollars)	13-week period ended October 16, 2016	13-week period ended September 26, 2015	26-week period ended October 1, 2016	26-week period ended September 26, 2015
Construction, renovations, and equipment	3.1	3.0	8.0	5.0
Intangible assets (primarily application software and internal development costs)	3.1	2.4	5.1	3.8
Technology equipment	0.5	0.7	1.0	0.9
Total	6.7	6.1	14.1	9.7

Cash Flows from Financing Activities

The Company generated cash flows of \$0.5 million from financing activities in the 13-week period ended October 1, 2016 compared to nil in the same period last year, an increase of \$0.5 million. The increase was driven by a greater number of option exercises in the current period. Proceeds from share issuances increased by \$0.5 million in the current period compared to the same period last year.

On a fiscal year-to-date basis, cash flows generated from financing activities increased to \$1.5 million in the current period compared to \$0.1 million in the same period last year. This increase was driven by the same reasons discussed above. In the current period, proceeds from share issuances increased by \$1.3 million compared to the same period last year.

Liquidity and Capital Resources

The Company has a highly seasonal business that generates the majority of its revenue and cash flows during the December holiday season. The Company has minimal accounts receivable and a significant portion of book products are purchased on trade terms with the right to return. The Company's main sources of capital are cash flows generated from operations and cash and cash equivalents.

Based on the Company's liquidity position and cash flow forecast, management expects its current cash position and cash flows generated from operations to be sufficient to meet its working capital needs and debt service requirements for fiscal 2017. In addition, the Company has the ability to reduce capital spending to fund debt requirements if necessary; however, a long-term decline in capital expenditures may negatively impact revenue and profit growth.

There can be no assurance that operating levels will not deteriorate over the ensuing fiscal year, which could result in the Company being unable to meet its current working capital requirements and debt service requirements for finance lease agreements. In addition, other factors not presently known to management could materially and adversely affect the Company's future cash flows. In such events, the Company would be required to obtain additional capital as is necessary to satisfy its working capital and debt service requirements from other sources. Alternative sources of capital could result in increased dilution to shareholders and may be on terms that are not favourable to the Company.

Accounting Policies

Critical Accounting Judgments and Estimates

The discussion and analysis of Indigo's operations and financial condition are based upon the unaudited interim condensed consolidated financial statements which have been prepared in accordance with IFRS and IAS 34. The preparation of these unaudited interim condensed consolidated financial statements in conformity with IFRS requires management to undertake a number of judgments and estimates about the recognition and measurement of assets, liabilities, revenues, and expenses. These judgments and estimates are based on management's historical experience and other assumptions which the Company believes to be reasonable under the circumstances. Actual results may differ from the judgments and estimates made by management, and actual results will seldom equal estimates.

Material judgments and estimates are made with respect to: revenue recognition from unredeemed gift cards and plum points; fair value of plum points; inventory shrinkage; reserves for slow-moving or damaged products and products that have been permanently marked down; vendor settlement; fair value of share-based instruments and number of equity instruments expected to vest; identification of cash generating units ("CGUs") and expected future cash flows from CGUs; depreciation and amortization periods; lease classification; and recognition and valuation of deferred tax assets.

The Company evaluates its judgments and estimates on an ongoing basis and methods used to calculate critical accounting estimates are consistent with prior periods. The significant accounting policies and significant judgments and estimates of the Company are described in notes 3 and 4 of the consolidated financial statements contained in the Company's fiscal 2016 Annual Report.

Accounting Standards Implemented in Fiscal 2017

There were no new standards implemented in the second quarter of fiscal 2017.

Presentation of Financial Statements ("IAS 1")

In December 2014, the IASB issued amendments to IAS 1 as part of the IASB's Disclosure Initiative. These amendments encourage entities to apply professional judgment regarding disclosure and presentation in their financial statements and are effective for annual periods beginning on or after January 1, 2016. The implementation of these amendments in the first quarter of fiscal 2017 did not have a significant impact on the Company's interim financial statements and the Company is currently assessing the impact to its annual disclosures.

New Accounting Pronouncements

Statement of Cash Flows (“IAS 7”)

In January 2016, the IASB issued amendments to IAS 7 as part of the IASB’s Disclosure Initiative. These amendments require entities to provide additional disclosures that will enable financial statement users to evaluate changes in liabilities arising from financing activities, including changes arising from cash flows and non-cash changes. These amendments are effective for annual periods beginning on or after January 1, 2017 with early application permitted. The Company is assessing the impact of adopting these amendments on its results of operations, financial position, and disclosures. The Company plans to apply this standard for reporting periods beginning on or after January 1, 2017.

Revenue from Contracts with Customers (“IFRS 15”)

In May 2014, the IASB issued IFRS 15, a new standard that specifies how and when to recognize revenue as well as requiring entities to provide users of financial statements with more informative, relevant disclosures. IFRS 15 supersedes IAS 18, “Revenue,” IAS 11, “Construction Contracts,” and a number of revenue-related interpretations. Application of IFRS 15 is mandatory for all IFRS reporters and it applies to nearly all contracts with customers: the main exceptions are leases, financial instruments, and insurance contracts. IFRS 15 must be applied for reporting periods beginning on or after January 1, 2018 and early adoption is permitted. The Company is assessing the impact of adopting this standard on its results of operations, financial position, and disclosures. The Company plans to apply this standard for reporting periods beginning on or after January 1, 2018.

Financial Instruments (“IFRS 9”)

In July 2014, the IASB issued the final version of IFRS 9, which reflects all phases of the financial instruments project and replaces IAS 39, “Financial Instruments: Recognition and Measurement,” and all previous versions of IFRS 9. The standard introduces new requirements for classification and measurement, impairment, and hedge accounting. IFRS 9 is effective for annual periods beginning on or after January 1, 2018, with early application permitted. The Company is assessing the impact of the new standard on its results of operations, financial position, and disclosures. The Company plans to apply this standard for reporting periods beginning on or after January 1, 2018.

Leases (“IFRS 16”)

In January 2016, the IASB issued IFRS 16, which supersedes existing standards and interpretations under IAS 17, “Leases.” IFRS 16 requires all leases to be reported on a company’s balance sheet and will provide greater transparency on companies’ leased assets and liabilities. The new standard will apply for annual periods beginning on or after January 1, 2019. Earlier application is permitted provided the Company has also adopted IFRS 15. The Company is assessing the impact of adopting this standard on its results of operations, financial position, and disclosures. The Company plans to apply this standard for reporting periods beginning on or after January 1, 2019.

Disclosure Controls and Procedures

Management is responsible for establishing and maintaining a system of disclosure controls and procedures to provide reasonable assurance that all material information relating to the Company is gathered and reported on a timely basis to senior management, including the Chief Executive Officer (“CEO”) and Chief Financial Officer (“CFO”), so that appropriate decisions can be made by them regarding public disclosure.

Internal Controls over Financial Reporting

Management is also responsible for establishing and maintaining adequate internal controls over financial reporting to provide reasonable assurance regarding the reliability of financial reporting and the preparation of consolidated financial statements for external purposes in accordance with IFRS.

All internal control systems, no matter how well designed, have inherent limitations. Therefore, even those systems determined to be effective can provide only reasonable assurance with respect to consolidated financial statement preparation and presentation. Additionally, management is necessarily required to use judgment in evaluating controls and procedures.

As required by National Instrument 52-109, “Certification of Disclosure in Issuers’ Annual and Interim Filings,” the CEO and CFO have evaluated, or caused to be evaluated under their supervision, the effectiveness of such internal controls over financial reporting using the framework established in the Internal Control – Integrated Framework (“COSO Framework”) published in 2013 by the Committee of Sponsoring Organizations of the Treadway Commission.

Changes in Internal Controls over Financial Reporting

Management has also evaluated whether there were changes in the Company's internal controls over financial reporting that occurred during the period beginning on July 3, 2016 and ended on October 1, 2016 that have materially affected, or are reasonably likely to materially affect, the Company's internal controls over financial reporting. The Company has determined that no material changes in internal controls over financial reporting have occurred in this period.

Cautionary Statement Regarding Forward-Looking Statements

The above discussion includes forward-looking statements. All statements other than statements of historical facts included in this discussion that address activities, events, or developments that the Company expects or anticipates will or may occur in the future are forward-looking statements. These statements are based on certain assumptions and analysis made by the Company in light of its experience, analysis, and its perception of historical trends, current conditions, and expected future developments as well as other factors it believes are appropriate in the circumstances. However, whether actual results and developments will conform to the expectations and predictions of the Company is subject to a number of risks and uncertainties, including the general economic, market, or business conditions; competitive actions by other companies; changes in laws or regulations; and other factors, many of which are beyond the control of the Company. Consequently, all of the forward-looking statements made in this discussion are qualified by these cautionary statements and there can be no assurance that results or developments anticipated by the Company will be realized or, even if substantially realized, that they will have the expected consequences to, or effects on, the Company.

Non-IFRS Financial Measures

The Company prepares its consolidated financial statements in accordance with IFRS. In order to provide additional insight into the business, the Company has also provided non-IFRS data, including comparable sales and adjusted EBITDA, in the discussion and analysis section above. These measures are specific to Indigo and have no standardized meaning prescribed by IFRS. Therefore, these measures may not be comparable to similar measures presented by other companies.

Total comparable sales (including online), comparable retail store sales, and adjusted EBITDA are key indicators used by the Company to measure performance against internal targets and prior period results. These measures are commonly used by financial analysts and investors to compare the Company to other retailers.

Total comparable sales is based on comparable retail store sales and includes online sales for the same period. Comparable retail store sales are defined as sales generated by stores that have been open for more than 12 months on a 52-week basis. These measures exclude sales fluctuations due to store openings and closings, permanent relocation, and material changes in square footage, and they are key performance indicators for the Company. Adjusted EBITDA is defined as earnings before interest, taxes, depreciation, amortization, impairment, asset disposals, and equity investment. The method of calculating adjusted EBITDA is consistent with that used in prior periods.

Reconciliations between total comparable sales, comparable retail store sales, and revenue (the most comparable IFRS measure) were included earlier in this report. A reconciliation between adjusted EBITDA and earnings (loss) before income taxes (the most comparable IFRS measure) is provided below:

(millions of Canadian dollars)	13-week period ended October 1, 2016	13-week period ended September 26, 2015	26-week period ended October 1, 2016	26-week period ended September 26, 2015
Adjusted EBITDA	4.6	3.9	(1.4)	1.8

NOTICE OF NO AUDITOR REVIEW OF INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Under National Instrument 51-102, Part 4, subsection 4.3(3)(a), if an auditor has not performed a review of the interim condensed consolidated financial statements, they must be accompanied by a notice indicating that the financial statements have not been reviewed by an auditor.

The accompanying unaudited interim condensed consolidated financial statements of the Company have been prepared by and are the responsibility of the Company's management.

The Company's independent auditor has not performed a review of these interim condensed consolidated financial statements.

Notes to the Interim Condensed Consolidated Financial Statements

October 1, 2016
(Unaudited)

1. CORPORATE INFORMATION

Indigo Books & Music Inc. (the “Company” or “Indigo”) is a corporation domiciled and incorporated under the laws of the Province of Ontario in Canada. The Company’s registered office is located at 468 King Street West, Toronto, Ontario, M5V 1L8, Canada. The unaudited interim condensed consolidated financial statements of the Company comprise the Company, its equity investment in Calendar Club of Canada Limited Partnership (“Calendar Club”), and its wholly-owned subsidiary, Soho Studios, Inc. The Company is the ultimate parent of the consolidated organization.

2. BASIS OF PREPARATION

Statement of Compliance

These unaudited interim condensed consolidated financial statements have been prepared using accounting policies consistent with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”) and in accordance with International Accounting Standard (“IAS”) 34, “Interim Financial Reporting.” The same accounting policies and methods of computation as those used in the preparation of the fiscal 2016 Annual Report were followed in the preparation of these unaudited interim condensed consolidated financial statements. These unaudited interim condensed consolidated financial statements should be read in conjunction with the Company’s fiscal 2016 Annual Report.

The unaudited interim condensed consolidated financial statements for the 13 and 26-week periods ended October 1, 2016 (including comparatives) were approved by the Board of Directors on November 8, 2016.

Significant Judgments and Estimates

The preparation of these unaudited interim condensed consolidated financial statements in conformity with IFRS requires management to undertake a number of judgments and estimates about the recognition and measurement of assets, liabilities, revenues, and expenses. These judgments and estimates are based on management’s historical experience and other assumptions which

the Company believes to be reasonable under the circumstances. Actual results may differ from the judgments and estimates made by management, and actual results will seldom equal estimates.

Material judgments and estimates are made with respect to: revenue recognition from unredeemed gift cards and plum rewards program (“Plum”) points; fair value of Plum points; inventory shrinkage; reserves for slow-moving or damaged products and products that have been permanently marked down; vendor settlement; fair value of share-based instruments and number of equity instruments expected to vest; identification of cash generating units (“CGUs”) and expected future cash flows from CGUs; depreciation and amortization periods; lease classification; and recognition and valuation of deferred tax assets.

3. CHANGES IN ACCOUNTING POLICIES

Presentation of Financial Statements (“IAS 1”)

In December 2014, the IASB issued amendments to IAS 1 as part of the IASB’s Disclosure Initiative. These amendments encourage entities to apply professional judgment regarding disclosure and presentation in their financial statements and are effective for annual periods beginning on or after January 1, 2016. The implementation of these amendments in the first quarter of fiscal 2017 did not have a significant impact on the Company’s interim financial statements and the Company is currently assessing the impact to its annual disclosures.

New Accounting Pronouncements

Statement of Cash Flows (“IAS 7”)

In January 2016, the IASB issued amendments to IAS 7 as part of the IASB’s Disclosure Initiative. These amendments require entities to provide additional disclosures that will enable financial statement users to evaluate changes in liabilities arising from financing activities, including changes arising from cash flows and non-cash changes. These amendments are effective for annual periods beginning on or after January 1, 2017 with early application permitted. The Company is assessing the impact of adopting these amendments on its results of operations, financial position, and disclosures. The Company plans to apply this standard for reporting periods beginning on or after January 1, 2017.

Revenue from Contracts with Customers (“IFRS 15”)

In May 2014, the IASB issued IFRS 15, a new standard that specifies how and when to recognize revenue as well as requiring entities to provide users of financial statements with more informative, relevant disclosures. IFRS 15 supersedes IAS 18, “Revenue,” IAS 11, “Construction Contracts,” and a number

of revenue-related interpretations. Application of IFRS 15 is mandatory for all IFRS reporters and it applies to nearly all contracts with customers: the main exceptions are leases, financial instruments, and insurance contracts. IFRS 15 must be applied for reporting periods beginning on or after January 1, 2018 and early adoption is permitted. The Company is assessing the impact of adopting this standard on its results of operations, financial position, and disclosures. The Company plans to apply this standard for reporting periods beginning on or after January 1, 2018.

Financial Instruments (“IFRS 9”)

In July 2014, the IASB issued the final version of IFRS 9, which reflects all phases of the financial instruments project and replaces IAS 39, “Financial Instruments: Recognition and Measurement,” and all previous versions of IFRS 9. The standard introduces new requirements for classification and measurement, impairment, and hedge accounting. IFRS 9 is effective for annual periods beginning on or after January 1, 2018, with early application permitted. The Company is assessing the impact of the new standard on its results of operations, financial position, and disclosures. The Company plans to apply this standard for reporting periods beginning on or after January 1, 2018.

Leases (“IFRS 16”)

In January 2016, the IASB issued IFRS 16, which supersedes existing standards and interpretations under IAS 17, “Leases.” IFRS 16 requires all leases to be reported on a company’s balance sheet and will provide greater transparency on companies’ leased assets and liabilities. The new standard will apply for annual periods beginning on or after January 1, 2019. Earlier application is permitted provided the Company has also adopted IFRS 15. The Company is assessing the impact of adopting this standard on its results of operations, financial position, and disclosures. The Company plans to apply this standard for reporting periods beginning on or after January 1, 2019.

4. SEASONALITY OF OPERATIONS

The business of Indigo follows a seasonal pattern, with sales of merchandise being highest in the third fiscal quarter due to consumer holiday buying patterns. As a result, a disproportionate portion of total annual revenue is typically earned in the third fiscal quarter. Therefore, the results of operations for the 13 and 26-week periods ended October 1, 2016 and September 26, 2015 are not indicative of the results of other periods.

5. CASH AND CASH EQUIVALENTS

Cash and cash equivalents consist of the following:

(thousands of Canadian dollars)	October 1, 2016	September 26, 2015	April 2, 2016
Cash	88,407	120,049	102,862
Restricted cash	5,259	5,583	3,460
Cash equivalents	90,229	50,567	110,166
Cash and cash equivalents	183,895	176,199	216,488

Restricted cash represents cash pledged as collateral for letter of credit obligations issued to support the Company's purchases of offshore merchandise.

6. INVENTORIES

The cost of inventories recognized as an expense during the 13 and 26-week periods ended October 1, 2016 were \$122.6 million and \$231.8 million, respectively (2015: 13 weeks – \$114.4 million; 26 weeks – \$219.6 million). Inventories consist of the landed cost of goods sold and exclude online shipping costs, inventory shrink and damage reserve, and all vendor support programs. The amount of inventory write-downs as a result of net realizable value lower than cost during the 13 and 26-week periods ended October 1, 2016 were \$1.0 million and \$2.6 million, respectively (2015: 13 weeks – \$1.6 million; 26 weeks – \$3.8 million), and there were no reversals of inventory write-downs that were recognized in prior periods (2015: 13 weeks – nil; 26 weeks – nil). The amount of inventory with net realizable value equal to cost was \$2.8 million as at October 1, 2016 (September 26, 2015 – \$1.8 million).

7. DERIVATIVE FINANCIAL INSTRUMENTS

The Company's derivative financial instruments consist of foreign exchange forward contracts. These contracts were entered into in order to manage the currency fluctuation risk associated with forecasted U.S. dollar payments, primarily for inventory purchases, and have been designated as cash flow hedges for accounting purposes.

At the inception of a hedge relationship, the Company documents the relationship between the hedging instrument and the hedged item along with the Company's risk management objectives and strategy for undertaking various hedge transactions. Furthermore, at inception and on an ongoing basis, the Company documents whether the hedging instrument is highly effective in offsetting changes in cash flows of the hedged item attributable to the hedged

risk. Such hedges are expected to be highly effective in achieving offsetting changes in cash flows and are assessed on an ongoing basis to determine that they actually have been highly effective throughout the financial reporting periods for which they were designated.

Accordingly, the effective portion of the change in the fair value of the foreign exchange forward contracts that are designated and qualify as cash flow hedges is recognized in other comprehensive income (loss) until related payments have been made in future accounting periods. Associated gains and losses recognized in other comprehensive income (loss) are reclassified to earnings in the periods when the hedged item is recognized in earnings. These earnings are included within the same line of the consolidated statement of earnings (loss) as the recognized item. However, when the hedged forecast transaction results in the recognition of a non-financial asset, the gains and losses previously recognized in other comprehensive income (loss) are transferred from equity and included in the initial measurement of the cost of the non-financial asset. The fair value of the foreign exchange forward contracts is determined using the forward exchange rates at the measurement date, with the resulting value discounted back to present values. The gain or loss relating to the ineffective portion is recognized immediately in the consolidated statements of earnings (loss).

During the 13-week period ended October 1, 2016, the Company entered into seven forward contracts with a total notional amount of C\$43.4 million to buy U.S. dollars and sell Canadian dollars. During the 26-week period ended October 1, 2016, the Company entered into 13 forward contracts with a total notional amount of C\$86.5 million to buy U.S. dollars and sell Canadian dollars. As at October 1, 2016, the Company had five remaining foreign currency forward contracts in place, representing a total notional amount of C\$45.9 million (September 26, 2015 – no forward contracts). These contracts extend over a period not exceeding 12 months.

The total fair value of the foreign exchange forward contracts as at October 1, 2016 was an unrealized net gain of \$0.4 million (September 26, 2015 – no forward contracts); the carrying value of the derivative financial instruments is equivalent to the pre-tax unrealized gain at period end. During the 13 and 26-week periods ended October 1, 2016, net gains of \$0.4 million and \$0.3 million, respectively, (2015 – nil) were reclassified from other comprehensive income to inventory and expenses. All cash flow hedges were fully effective for the 13 and 26-week periods ended October 1, 2016.

8. SHARE CAPITAL

Share capital consists of the following:

	26-week period ended October 1, 2016		26-week period ended September 26, 2015		53-week period ended April 2, 2016	
	Number of shares	Amount C\$ (thousands)	Number of shares	Amount C\$ (thousands)	Number of shares	Amount C\$ (thousands)
Balance, beginning of period	25,797,351	209,318	25,495,289	205,871	25,495,289	205,871
Issued during the period						
Directors' deferred share units converted	–	–	29,142	291	29,142	291
Options exercised	148,300	1,867	31,850	310	272,920	3,156
Balance, end of period	25,945,651	211,185	25,556,281	206,472	25,797,351	209,318

9. SHARE-BASED COMPENSATION

As at October 1, 2016, 2,211,500 stock options were outstanding with exercise prices ranging from \$8.00 to \$18.00. Of these outstanding stock options, 934,525 were exercisable. As at September 26, 2015, there were 2,036,000 stock options outstanding of which 718,820 were exercisable.

The Company uses the fair value method of accounting for stock options, which estimates the fair value of the stock options granted on the date of grant, net of estimated forfeitures, and expenses this value over the vesting period. During the 13 and 26-week periods ended October 1, 2016, the pre-forfeiture fair value of options granted was \$2.6 million and \$2.7 million, respectively (2015: 13 weeks – \$1.2 million; 26 weeks – \$1.2 million).

The fair value of the employee stock options is estimated at the date of grant using the Black-Scholes option pricing model with the following weighted average assumptions during the periods presented:

	13-week period ended October 1, 2016	13-week period ended September 26, 2015
Black-Scholes option pricing assumptions		
Risk-free interest rate	0.6%	0.5%
Expected volatility	33.8%	32.9%
Expected time until exercise	3.0 years	3.0 years
Expected dividend yield	–	–
Other assumptions		
Forfeiture rate	27.3%	28.4%

Directors' Compensation

The Company has established a Directors' Deferred Share Unit Plan ("DSU Plan"). Under the DSU Plan, Directors annually elect whether to receive their annual retainer fees and other Board-related compensation in the form of deferred share units ("DSUs") or receive up to 50% of this compensation in cash. All compensation during the 13 and 26-week periods ended October 1, 2016 was in the form of DSUs.

The number of shares reserved for issuance under this plan is 500,000. During the 13 and 26-week periods ended October 1, 2016, the Company issued 5,258 DSUs with a value of \$0.1 million and 11,639 DSUs with a value of \$0.2 million, respectively (2015: 13 weeks – 8,071 DSUs with a value of \$0.1 million; 26 weeks – 19,015 DSUs with a value of \$0.2 million). The number of DSUs to be issued to each Director is based on a set fee schedule. The grant date fair value of the outstanding DSUs as at October 1, 2016 was \$4.0 million (September 26, 2015 – \$3.6 million) and was recorded in contributed surplus. The fair value of DSUs is equal to the traded price of the Company's common shares on the grant date.

10. SUPPLEMENTARY OPERATING INFORMATION

Supplemental product line revenue information:

	13-week period ended October 1, 2016	13-week period ended September 26, 2015	26-week period ended October 1, 2016	26-week period ended September 26, 2015
(thousands of Canadian dollars)				
Print ¹	136,770	134,005	257,894	255,460
General merchandise ²	70,813	62,431	136,613	118,946

Share-based compensation	354	278	756	610
Total employee benefits expense	47,852	46,768	95,126	91,912

Termination benefits arise when the Company terminates certain employment agreements.

11. LOSS PER SHARE

Loss per share is calculated based on the weighted average number of shares outstanding during the period. The Company's stock options were anti-dilutive as the Company reported a loss and, therefore, were not included in the October 1, 2016 and September 26, 2015 diluted loss per share calculations.

12. STATEMENTS OF CASH FLOWS

Supplemental year-to-date cash flow information:

(thousands of Canadian dollars)	13-week period ended October 1, 2016	13-week period ended September 26, 2015	26-week period ended October 1, 2016	26-week period ended September 26, 2015
Accounts receivable	(6,498)	(5,246)	(10,635)	(13,720)
Inventories	(47,035)	(51,424)	(46,479)	(48,557)
Prepaid expenses	7,385	784	6,246	634

Provisions (current and long-term)	(8)	(701)	(19)	(880)
Deferred revenue	(99)	612	343	874
Net change in non-cash working capital balances	7,785	967	(20,901)	(20,674)

13. RELATED PARTY TRANSACTIONS

The Company's related parties include its key management personnel, shareholders, defined contribution retirement plan, equity investment in Calendar Club, and subsidiary. Unless otherwise stated, none of the transactions incorporate special terms and conditions and no guarantees were given or received. Outstanding balances are usually settled in cash.

Transactions with Key Management Personnel

Key management of the Company includes members of the Board of Directors as well as Executive Officers of the Company. Key management personnel remuneration includes the following expenses:

(thousands of Canadian dollars)	13-week period ended October 1, 2016	13-week period ended September 26, 2015	26-week period ended October 1, 2016	26-week period ended September 26, 2015
Wages, salaries, and bonus	1,715	1,253	3,071	2,480
Short-term benefits expense	51	50	91	100
Retirement benefits expense	14	19	28	35
Share-based compensation	277	167	459	355
Directors' compensation	89	85	197	196
Total remuneration	2,146	1,574	3,846	3,166

Transactions with Shareholders

During the second quarter of fiscal 2017, the Company purchased goods and services from companies in which Mr. Gerald W. Schwartz, who is the controlling shareholder of Indigo, holds a controlling or significant interest. For the 13 and 26-week periods ended October 1, 2016, the Company paid \$0.9 million and \$1.9 million, respectively for these transactions (2015: 13 weeks – \$0.7 million; 26 weeks – \$1.3 million). As at October 1, 2016, Indigo had \$0.3 million payable to these companies under standard payment terms and \$2.8 million of restricted cash pledged as collateral for letter of credit obligations issued to support the Company's purchases of merchandise from these companies (September 26, 2015 – \$0.2 million payable and \$2.8 million restricted cash). All transactions were in the normal course of business for both Indigo and the related companies.

Transactions with Defined Contribution Retirement Plan

The Company's transactions with the defined contribution retirement plan include contributions paid to the retirement plan as disclosed in note 10.

The Company has not entered into other transactions with the retirement plan.

Transactions with Associate

The Company's associate, Calendar Club, is a seasonal operation that is dependent on the December holiday sales season to generate revenue. During the year, the Company loans cash to Calendar Club for working capital requirements and Calendar Club repays the loans once profits are generated in the third quarter. The net amount of these transactions for the 13 and 26-week periods ended October 1, 2016 were \$4.9 million and \$7.4 million, respectively, paid by Indigo (2015: 13 weeks – \$7.4 million; 26 weeks – \$9.9 million paid by Indigo).
