Indigo holds ground despite tough retail environment

Earnings per share improve

TORONTO -- November 4, 2003 -- Indigo Books & Music Inc. (TSX: IDG), Canada's largest book retailer, reported revenues flat to last year despite unrelenting challenges to retail in the last quarter, including a steep tourism decline and blackouts in Ontario which shut down operations for a two-day period. The Company posted improved earnings per share this quarter and profits ahead of last fiscal year.

Total consolidated revenues in the second quarter were \$170.1 million compared to \$171.2 million for the same period last year. Comparative store sales increased by 1.2% for superstores (Indigo and Chapters) while mall stores comparative sales were flat at 0.1%.

As planned, Indigo closed the McGill University Bookstore in Montreal when its contract expired in June resulting in campus sales declining by \$3.1 million versus the same quarter last year.

"We have held ground, although even this was tough given the challenges faced by the retail industry these past months." said Heather Reisman, Indigo's Chief Executive Officer.

The Online business continued to show strong performance in an increasingly competitive market. Sales from <u>chapters.indigo.ca</u> grew 25.5% in the second quarter over the same period last year, from \$8.2 million to \$10.3 million. This growth was attributed to improvements in several key areas such as title availability and the growing use of online kiosk terminals at the retail stores. Customers have also responded well to the introduction of line extensions in the gifts category and the launch of a distinctive, affordably priced jewellery collection. Indigo will continue to support its online business with strong marketing programs and a focus on matching competition on pricing and shipping initiatives.

On the profitability front, losses per share decreased from \$0.36 to \$0.32, an improvement of \$0.04 over the same quarter last year. Earnings were the same as last year with a net loss of \$7.6 million, this despite expenses incurred related to the supply chain redesign project (SAP). Commenting on the impact of this major initiative, Ms Reisman added, "We are on track to complete the implementation of SAP in April. We will then start experiencing the benefits of this commitment."

The picture year to date is modestly improved with a net loss of \$19.1 million compared to \$20.8 million for the same period in fiscal 2003, an improvement of \$1.7 million or 8%.

Forward-Looking Statements

Statements contained in this news release that are not historical facts are forward-looking statements which involve risk and uncertainties that could cause results to differ materially from those expressed in the forward-looking statements. Among the key factors that could cause such differences are: general economic, market or business conditions in Canada; competitive actions by other companies; changes in laws or regulations; and other factors, many of which are beyond the control of the Company.
