## Indigo posts a $\$ 29$ million profit in the third quarter

## Online, SAP implementation drag on quarter profitability

TORONTO - February 12, 2004 -- Indigo Books \& Music Inc. (TSX: IDG), Canada's largest book retailer, reported profits of $\$ 28.8$ million for this past quarter and $\$ 9.6$ million year to date.

The third quarter included the busy Holiday season during which the Company served over 6.5 million customers through its retail, online and corporate channels. The Company also saw an unprecedented demand for Gift Cards with sales of this product increasing 20\%over the same quarter last year. Since Gift Card sales are not recorded as revenues until the card is used, their impact will be seen in future quarters.

Total sales for the quarter were $\$ 279$ million, or $\$ 2$ million over the same quarter last year. Superstores saw a same store increase of $1.4 \%$ while mall stores declined by $1.7 \%$ On a year to date basis, comparative total store sales are up 1.3\%

After a strong performance in the second quarter, chapters.indigo.ca continues its ascent. Sales in the third quarter experienced a solid increase of $25 \%$ over the same quarter last year, from $\$ 12.8$ million to $\$ 16.0$ million.

Net profits this quarter were down $\$ 2$ million over the same quarter last year, largely due to the continued margin and marketing pressure in the online business. "Value pricing and low cost shipping options are important to our customers and we intend to remain competitive on these fronts, while pursuing our efforts to improve our cost position," commented Indigo Chief Executive Officer, Heather Reisman.

The picture year to date shows a net profit of $\$ 9.6$ million versus $\$ 9.9$ million last year. Earnings this year include $\$ 1.4$ million in one-time costs associated with the Company's organization-wide Supply Chain Redesign project or SAP. Ms Reisman summarized the expected outcome of this major initiative, which addresses the flow of physical goods, information and money as "Having the right selection, available at the right location, at the right time, in the right quantities and in the right condition."

Earnings per share are down $\$ 0.08$ to $\$ 1.20$ from $\$ 1.28$ a year ago while the position year to date stands at $\$ 0.40$, from $\$ 0.45$ last year.

The Company also reports that it paid down $\$ 31$ million in long-term debt from its operating cash flow subsequent to the quarter end.

## Forward-Looking Statements

Statements contained in this news release that are not historical facts are forward-looking statements which involve risk and uncertainties that could cause results to differ materially from those expressed in the forward-looking statements. Among the key factors that could cause such differences are: general economic, market or business conditions in Canada; competitive actions by other companies; changes in laws or regulations; and other factors, many of which are beyond the control of the Company.
