SECOND QUARTER REPORT
FOR THE 13 AND 26-WEEK PERIODS ENDED SEPTEMBER 28, 2019

Table of Contents

- 1. Management's Discussion and Analysis
- 24. Consolidated Financial Statements and Notes
- 40. Investor Information

Management’s Discussion and Analysis

The following Management’s Discussion and Analysis (“MD&A”) is prepared as at November 6, 2019 and is based primarily on the unaudited interim condensed consolidated financial statements of Indigo Books & Music Inc. (the “Company” or “Indigo”) for the 13 and 26-week periods ended September 28, 2019 and September 29, 2018. The Company’s unaudited interim condensed consolidated financial statements and accompanying notes are reported in Canadian dollars and have been prepared in accordance with International Accounting Standard (“IAS”) 34, “Interim Financial Reporting.” These statements reflect the adoption of IFRS 16 *Leases* on March 31, 2019, using the modified retrospective method, with the cumulative effect initially recognized in retained earnings, and no restatement of the prior comparative period. Please see “Adoption of IFRS 16” for further information. Except as otherwise noted, the same accounting policies and methods of computation as those used in the preparation of the fiscal 2019 Annual Report were followed in the preparation of these unaudited interim condensed consolidated financial statements.

These unaudited interim condensed consolidated financial statements do not contain all disclosures required by International Financial Reporting Standards (“IFRS”) for annual financial statements. This MD&A should be read in conjunction with the unaudited interim condensed consolidated financial statements and notes contained in this Quarterly Report, the audited annual consolidated financial statements and accompanying notes for the 52-week period ended March 30, 2019 and the MD&A included in the Company’s fiscal 2019 Annual Report. The Annual Report and additional information about the Company, including the Annual Information Form, can be found on SEDAR at www.sedar.com.

Overview

Indigo is Canada’s largest book, gift, and specialty toy retailer, operating stores in all ten provinces and one territory and offering online sales through the *indigo.ca* website and the Company’s mobile applications. The Company also has retail operations in the United States through a wholly-owned subsidiary, operating its first retail store in Short Hills, New Jersey. As at September 28, 2019, the Company operated 89 superstores under the banners *Chapters* and *Indigo* and 111 small format stores under the banners *Coles*, *Indigospirit* and *The Book Company*.

The Company has a 50% interest in Calendar Club of Canada Limited Partnership (“Calendar Club”), which operates seasonal kiosks and year-round stores in shopping malls across Canada. The Company is also comprised of its

wholly-owned subsidiaries; Indigo Design Studio, Inc., Indigo Cultural Department Store Inc. (“Indigo U.S.”), and YYZ Holdings Inc. (“YYZ”), along with its equity investments in Unplug Meditation, LLC (“Unplug”).

The Company supports a separate registered charity called the Indigo Love of Reading Foundation (the “Foundation”). The Foundation provides new books and learning material to high-needs elementary schools across the country through donations from Indigo, its customers, its suppliers, and its employees.

Results of Operations

The following table summarizes the Company’s consolidated results of operations for the periods indicated. The classification of financial information presented below is specific to Indigo and may not be comparable to that of other retailers. The selected financial information is derived from the unaudited interim condensed consolidated financial statements for the 13 and 26-week periods ended September 28, 2019 and September 29, 2018. The Company implemented IFRS 16 *Leases*, on March 31, 2019 using the modified retrospective approach. As a result, the Company’s fiscal 2020 results reflect lease accounting under IFRS 16, while the comparative quarters have not been restated. This resulted in a material increase to adjusted EBITDA.

(millions of Canadian dollars)	13-week period ended September 28, 2019		13-week period ended September 29, 2018		26-week period ended September 28, 2019		26-week period ended September 29, 2018	
	Revenue	%	Revenue	%	Revenue	%	Revenue	%
Revenue	203.4	100.0	216.3	100.0	395.9	100.0	421.7	100.0
Cost of sales	(118.6)	58.3	(128.9)	59.6	(227.2)	57.4	(246.3)	58.4
Cost of operations	(60.9)	29.9	(78.4)	36.2	(119.6)	30.2	(152.5)	36.2
Selling, administrative, and other expenses	(25.2)	12.4	(27.6)	12.8	(50.6)	12.8	(54.7)	13.0
Adjusted EBITDA¹	(1.3)	0.6	(18.6)	8.6	(1.5)	0.4	(31.8)	7.5
Depreciation of property, plant and equipment, and right-of-use assets	(16.1)	7.9	(5.0)	2.3	(31.8)	8.0	(10.2)	2.4
Amortization of intangible assets	(3.3)	1.6	(2.4)	1.1	(6.6)	1.7	(4.6)	1.1
Loss on disposal of capital assets	(0.5)	0.2	(0.1)	–	(1.0)	0.3	(0.4)	0.1
Net interest income (expense)	(5.8)	2.9	0.8	0.4	(11.3)	2.9	1.6	0.4
Share of loss from equity investments	(0.8)	0.4	(0.5)	0.2	(1.6)	0.4	(1.1)	0.3
Loss before income taxes	(27.9)	13.7	(25.8)	11.9	(53.8)	13.6	(46.5)	11.0

¹ Earnings before interest, taxes, depreciation, amortization, impairment, asset disposals, and equity investments. Also see “Non-IFRS Financial Measures”.

Adjusted EBITDA is a key indicator used by the Company to measure performance against internal targets and prior period results and is commonly used by financial analysts and investors to assess performance. This measure is specific to Indigo and has no standardized meaning prescribed by IFRS. Therefore, adjusted EBITDA may not be comparable to similar measures presented by other companies. A reconciliation of adjusted EBITDA to earnings (loss) before income taxes, the most directly comparable measure determined under IFRS, is presented above for informational purposes.

Adoption of IFRS 16 Leases (“IFRS 16”)

The Company’s financial performance in fiscal 2020 was materially impacted by the adoption of IFRS 16 *Leases*, which supersedes IAS 17. IFRS 16 introduced a single lessee accounting model which required substantially all the Company’s operating leases to be recorded on balance sheet as a right-of-use asset and a lease liability, representing the right to use the underlying asset during the lease term and the obligation to make future lease payments, respectively. The Company implemented the standard on March 31, 2019 using the modified retrospective approach; therefore, the Company’s 2020 first and second quarter results reflect lease accounting under IFRS 16. Prior year results have not been restated, as permitted under the transition provisions in the standard, and continue to be reported under IAS 17.

Certain lease-related expenses which were previously recorded in operating expenses are now recorded as depreciation on the right-of-use asset and interest expense on the lease liability, line items which are reported below the adjusted EBITDA key performance indicator. The depreciation expense associated with the right-of-use asset is recognized on a straight-line basis over the associated lease term, while the interest expense declines over the life of the lease, as the liability is repaid. From a measurement perspective, lease-related expenses are higher in the first half of the lease term, and lower in the second half when compared to the previous accounting method because of the recognition pattern for interest expense. Combined with the change in presentation on the consolidated statements of earnings (loss), this resulted in a positive year-over-year variance in adjusted EBITDA.

The impact of this adoption on the Company's statement of loss for the 13-week periods ended September 28, 2019 and September 29, 2018 is as follows:

(millions of Canadian dollars)	13-week period ended September 28, 2019	Impact of	13-week period ended September 28, 2019	%	13-week period ended September 29, 2018	%
	IFRS 16	IFRS 16	IAS 17	Revenue	IAS 17	Revenue
Revenue	203.4	–	203.4	100.0	216.3	100.0
Cost of sales	(118.6)	–	(118.6)	58.3	(128.9)	59.6
Cost of operations	(60.9)	(15.4)	(76.3)	37.5	(78.4)	36.2
Selling, administrative, and other expenses	(25.2)	(1.5)	(26.7)	13.1	(27.6)	12.8
Adjusted EBITDA¹	(1.3)	(16.9)	(18.2)	8.9	(18.6)	8.6
Depreciation of property, plant and equipment, and right-of-use assets	(16.1)	10.2	(5.9)	2.9	(5.0)	2.3
Amortization of intangible assets	(3.3)	–	(3.3)	1.6	(2.4)	1.1
Loss on disposal of capital assets	(0.5)	–	(0.5)	0.2	(0.1)	–
Net interest income (expense)	(5.8)	6.3	0.5	0.2	0.8	0.4

Income tax recovery	7.4	0.1	7.5	3.7	6.6	3.1
Net loss	(20.5)	(0.3)	(20.8)	10.2	(19.1)	8.8

¹ Earnings before interest, taxes, depreciation, amortization, impairment, asset disposals, and equity investments.
Also see “Non-IFRS Financial Measures”.

The impact of this adoption on the Company's statement of loss for the 26-week periods ended September 28, 2019 and September 29, 2018 is as follows:

(millions of Canadian dollars)	26-week period ended September 28, 2019		26-week period ended September 28, 2019		26-week period ended September 29, 2018	
	IFRS 16	Impact of IFRS 16	IAS 17	% Revenue	IAS 17	% Revenue
Revenue	395.9	–	395.9	100.0	421.7	100.0
Cost of sales	(227.2)	–	(227.2)	57.4	(246.3)	58.4
Cost of operations	(119.6)	(31.3)	(150.9)	38.1	(152.5)	36.2
Selling, administrative, and other expenses	(50.6)	(2.1)	(52.7)	13.3	(54.7)	13.0
Adjusted EBITDA¹	(1.5)	(33.5)	(35.0)	8.8	(31.8)	7.5
Depreciation of property, plant and equipment, and right-of-use assets	(31.8)	20.1	(11.7)	3.0	(10.2)	2.4
Amortization of intangible assets	(6.6)	–	(6.6)	1.7	(4.6)	1.1
Loss on disposal of capital assets	(1.0)	–	(1.0)	0.3	(0.4)	0.1
Net interest income (expense)	(11.3)	12.4	1.1	0.3	1.6	0.4
Share of loss from equity investments	(1.6)	–	(1.6)	0.4	(1.1)	0.3
Loss before income taxes	(53.8)	(1.0)	(54.8)	13.8	(46.5)	11.0
Income tax recovery	14.3	0.3	14.6	3.7	11.9	2.8
Net loss	(39.5)	(0.7)	(40.3)	10.2	(34.5)	8.2

¹ Earnings before interest, taxes, depreciation, amortization, impairment, asset disposals, and equity investments.
Also see "Non-IFRS Financial Measures".

Refer to Note 3 of the unaudited interim condensed consolidated financial statements for further details regarding the adoption of IFRS 16 and the impact to the consolidated balance sheets and opening retained earnings.

Revenue

Total consolidated revenue for the 13-week period ended September 28, 2019 decreased \$12.9 million or 6.0% to \$203.4 million from \$216.3 million for the 13-week period ended September 29, 2018. This decline in revenue was primarily a result of softer traffic, strong competitive pressures, and the Company's planned efforts to reduce promotions to improve profitability. Additionally, the impact of softer discretionary spending in product categories core to the Company and a more mature assortment impacted the general merchandise business, while the print business sustained historical trends.

Total comparable sales, which includes online sales, decreased by 8.0% for the second quarter. Comparable retail superstore sales for the quarter decreased 7.4%, while small format stores decreased 5.7%. Total comparable sales is based on comparable retail store sales and includes online sales for the same period. Comparable retail store sales are defined as sales generated by stores that have been open for more than 52 weeks. These measures exclude sales fluctuations due to store openings and closings, significant renovations, permanent relocations, material changes in square footage, and the impact of a 53-week fiscal year, when applicable. These measures are key performance indicators for the Company but have no standardized meaning prescribed by IFRS and may not be comparable to similar measures presented by other companies.

Retail revenue decreased by \$7.7 million or 4.3% to \$169.4 million for the 13-week period ended September 28, 2019 compared to \$177.1 million for the same period last year. This decline in revenue was primarily driven by the reasons discussed above.

Online revenue decreased by \$4.1 million or 12.2% to \$29.5 million for the 13-week period ended September 28, 2019 compared to \$33.6 million in the same period last year. Online sales declined due to a strategic reduction of promotional campaigns, including the “every book ships for free” campaign that ran in the second quarter of fiscal 2019, to decrease the Company’s reliance on discounting and improve the profitability of the channel. The merchandising strategy has also been refined to remove low-price low-margin items which historically drove traffic and sales at the expense of profitability once the channel’s fulfillment expenses were considered. These efforts have led to improvements in profitability in the online channel.

Revenue from other sources includes café revenue, irewards card sales, revenue from unredeemed gift cards (“gift card breakage”), revenue from unredeemed Plum points (“Plum breakage”), corporate sales, and revenue-sharing with Rakuten Kobo Inc. (“Kobo”). Revenue from other sources decreased \$1.2 million or 21.4% to \$4.4 million for the 13-week period ended September 28, 2019 compared to \$5.6 million in the same period last year, primarily driven by lower gift card breakage due to sustained changes in customer redemption patterns. Management will continue to monitor redemption activity and will adjust for changes as observed.

On a fiscal year-to-date basis, total consolidated revenue decreased by \$25.8 million or 6.1% to \$395.9 million compared to \$421.7 million for the same period last year, due to the same reasons discussed above.

Revenue by channel is highlighted below:

(millions of Canadian dollars)	13-week period ended September 28, 2019	13-week period ended September 29, 2018	% increase/ (decrease)	Comparable sales % increase/ (decrease)
Superstores	143.2	146.4	(2.2)	(7.4)
Small format stores	26.3	30.7	(14.3)	(5.7)
Online (including store kiosks)	29.5	33.6	(12.2)	(12.2)
Other ¹	4.4	5.6	(21.4)	N/A
Total	203.4	216.3	(6.0)	(8.0)

¹ Includes cafés, irewards, gift card breakage, Plum breakage, corporate sales, and Kobo revenue share.

Reconciliations between total revenue and comparable sales are provided below:

(millions of Canadian dollars)	13-week period ended September 28, 2019	13-week period ended September 29, 2018
Total retail store revenue	169.5	177.1
Total online revenue	29.5	33.6
Adjustments for stores not in both fiscal periods	(19.8)	(15.9)
Total comparable sales	179.2	194.8

(millions of Canadian dollars)	Superstores		Small format stores	
	13-week period ended September 28, 2019	13-week period ended September 29, 2018	13-week period ended September 28, 2019	13-week period ended September 29, 2018
Total revenue by format	143.2	146.4	26.3	30.7
Adjustments for stores not in both fiscal periods	(19.8)	(13.1)	—	(2.8)
Comparable retail store sales	123.4	133.3	26.3	27.9

Revenue by product line is as follows:

	13-week period ended September 28, 2019	13-week period ended September 29, 2018	26-week period ended September 28, 2019	26-week period ended September 29, 2018
Print ¹	59.5%	58.8%	59.6%	58.2%
General merchandise ²	38.3%	38.7%	38.5%	39.2%
Other ³	2.2%	2.5%	1.9%	2.6%
Total	100.0%	100.0%	100.0%	100.0%

¹ Includes books, magazines, newspapers, and related shipping revenue.

² Includes lifestyle, paper, toys, electronics, eReaders, eReader accessories, and related shipping revenue.

³ Includes cafés, irewards, gift card breakage, Plum breakage, corporate sales, and Kobo revenue share.

Cost of Sales

Cost of sales includes the landed cost of goods sold, online shipping costs, inventory shrink and damage reserve, less all vendor support programs. Cost of sales decreased \$10.3 million to \$118.6 million for the 13-week period ended September 28, 2019, compared to \$128.9 million for the same period last year. As a percent of total revenue, cost of sales decreased 1.3% to 58.3% compared to 59.6% for the same period last year. This decrease was driven by a reduction in promotional discounting and improved inventory management resulting in lower markdowns, which together resulted in improved margin rates across both the retail and online channels in both the general merchandise and print categories.

On a fiscal year-to-date basis, cost of sales decreased by \$19.1 million to \$227.2 million compared to \$246.3 million for the same period last year. Year-to-date cost of sales as a percent of total revenue decreased 1.0% to 57.4% compared to 58.4% in the same period last year for the same reasons discussed above.

Cost of Operations

Cost of operations includes all store, store support, online, and distribution centre costs. Cost of operations decreased \$17.5 million to \$60.9 million for the 13-week period ended September 28, 2019 compared to \$78.4 million for the same period last year. Excluding the IFRS 16 impact, cost of operations decreased by \$2.1 million from the prior year. The Company achieved \$3.6 million of operating cost savings through productivity initiatives and lower sales volumes across the Company's distribution centres and retail stores. This decrease in costs was partially offset by a \$1.5 million increase in the Company's cost base from net-new superstores opened in fiscal 2019 as part of the Company's retail transformation. As a percent of total revenue, normalized cost of operations increased by 1.3% to 37.5% this year, compared to 36.2% for the same period last year as the reduction achieved was outpaced by the impact of a lower sales base.

On a fiscal year-to-date basis, cost of operations decreased by \$32.9 million to \$119.6 million compared to \$152.5 million for the same period last year. Excluding the IFRS 16 impact, cost of operations decreased by \$1.6 million from the prior year. The Company eliminated \$5.2 million in costs through increased productivity in its stores and distribution centres, and lower volumes. This overall decrease was partly offset by \$3.6 million in incremental costs associated with net-new superstores opened in fiscal 2019. Year-to-date normalized cost of operations as a percent of total revenue increased by 1.9% to 38.1%, compared to 36.2% for the same period last year.

Selling, Administrative, and Other Expenses

Selling, administrative, and other expenses include marketing, head office costs, and operating expenses associated with the Company's strategic initiatives. These expenses decreased \$2.4 million to \$25.2 million for the 13-week period ended September 28, 2019, compared to \$27.6 million for the same period last year. Excluding the IFRS 16 impact, selling, administrative, and other expenses decreased by \$0.9 million. The Company achieved \$2.0 million in savings in the quarter as a result of cost cutting initiatives, partially offset by \$1.1 million in timing differences. As a percent of total revenue, normalized selling, administrative, and other expenses increased by 0.3% to 13.1%, compared to 12.8% for the same period last year.

On a fiscal year-to-date basis, selling, administrative, and other expenses decreased \$4.1 million to \$50.6 million compared to \$54.7 million for the same period last year. Adjusted for the IFRS 16 impact, selling, administrative, and other expenses decreased by \$2.0. The Company has achieved \$3.7 million of savings from its cost cutting initiatives to-date, through productivity improvements. This decrease is partly offset by an increase in termination benefits expense of \$1.7 million, primarily associated with the closure of the New York office. Year-to-date selling, administrative, and other expenses as a percent of total revenue, and normalized for IFRS 16, increased 0.3% to 13.3% compared to 13.0% in the same period last year.

Adjusted EBITDA

Adjusted EBITDA, defined as earnings before interest, taxes, depreciation, amortization, impairment, asset disposals, and equity investment increased \$17.3 million to a loss of \$1.3 million for the 13-week period ended September 28, 2019, compared to a loss of \$18.6 million for the same period last year. Excluding the IFRS 16 impact, adjusted EBITDA increased \$0.4 million. The increase in normalized adjusted EBITDA was driven by the margin rate and operating cost improvements achieved, which outpaced the impact of lower sales as discussed. Normalized adjusted EBITDA as a percent of revenue decreased by 0.3% to a loss of 8.9% from a loss of 8.6% for the same period last year.

On a fiscal year-to-date basis, adjusted EBITDA increased \$30.3 million to a loss of \$1.5 million compared to \$31.8 million for the same period last year. Excluding the IFRS 16 impact, adjusted EBITDA decreased \$3.2 million, as the Company's profitability initiatives had not yet outweighed the impact of declining sales in the first quarter of fiscal 2020. Year-to-date normalized adjusted EBITDA as a percent of total revenue decreased by 1.3% to a loss of 8.8% this year from a loss of 7.5% in the same period last year. A reconciliation of adjusted EBITDA to net earnings before taxes has been included in the "Results of Operations" section of Management's Discussion and Analysis.

Capital Assets

Depreciation and amortization for the 13-week period ended September 28, 2019 increased by \$12.0 million to \$19.4 million compared to \$7.4 million for the same period last year, which reflects the depreciation of the IFRS 16 right-of-use assets in the current period. Excluding the impact of IFRS 16, depreciation and amortization increased \$1.8 million as a result of significant investments in capital assets throughout fiscal 2019. Capital expenditures in the second quarter of fiscal 2020 totaled \$3.8 million compared to \$25.6 million for the same period last year. This decrease is a result of the completion of the capital investment program undertaken during fiscal 2019 throughout the Company's retail outlets, digital platforms and supply chain facilities. Capital expenditures for the second quarter of fiscal 2020 included \$1.1 million for retail store renovations and equipment, \$0.3 million for technology equipment, and \$2.4 million primarily for application software and internal development costs. None of the capital expenditures were financed through leases.

On a fiscal year-to-date basis, depreciation and amortization increased by \$23.7 million to \$38.4 million compared to \$14.7 million in the same period last year. Excluding the impact of IFRS 16, depreciation and amortization increased by \$3.7 million for the same reasons discussed above. Year-to-date, the Company has spent \$9.1 million on capital expenditures compared to \$48.5 million last year, again due to the completion of the capital investment plans implemented in fiscal 2019. Capital expenditures for the current year included \$3.6 million for retail store renovations and equipment, \$0.6 million for technology equipment, and \$4.9 million primarily for application software and internal development costs, which are classified as intangible assets. None of the capital expenditures were financed through leases.

Net Interest Income (Expense)

The Company recognized net interest expense of \$5.8 million for the 13-week period ended September 28, 2019, compared to net interest income of \$0.8 million for the same period last year, which reflects the interest expense associated with the IFRS 16 lease liability in the current period. Excluding the impact of IFRS 16, net interest income decreased by \$0.3 million. The Company nets interest income against interest expense. Compared to the prior year, the Company generated lower interest income as a lower cash balance was maintained throughout the period in interest-bearing short-term investments.

On a fiscal year-to-date basis, the Company recognized net interest expense of \$11.3 million compared to net interest income of \$1.6 million in the same

period last year. Excluding the impact of IFRS 16, net interest income decreased by \$0.5 million for the same reasons discussed above.

Share of Loss from Equity Investments

The Company uses the equity method to account for its investments in Calendar Club and Unplug. The Company recognizes its share of equity investment earnings and losses as part of consolidated net earnings and losses. Calendar Club is primarily a seasonal operation that is dependent on the November/December holiday sales season to generate revenue while Unplug generates year-round revenue. The Company recognized a net loss from Calendar Club of \$0.8 million for the 13-week period ended September 28, 2019, compared with the net loss of \$0.5 million recognized for the same period last year. Earnings from Unplug were immaterial for the 13-week period ended September 28, 2019.

On a fiscal year-to-date basis, Indigo recognized a net loss from Calendar Club of \$1.6 million compared to a net loss of \$1.1 million in the same period last year. Earnings from Unplug were immaterial for the 26-week period ended September 28, 2019.

Income Taxes

The Company recognized a non-cash income tax recovery of \$7.4 million for the 13-week period ended September 28, 2019, compared to recognizing a non-cash income tax recovery of \$6.6 million for the same period last year, which includes the current tax impact of adopting IFRS 16. Excluding the impact of IFRS 16, the income tax recovery increased by \$0.9 million compared to the prior year. The increased income tax recovery recognized during the period related to an increase in deferred tax assets as a result of a higher net loss compared to the prior year.

On a fiscal year-to-date basis, Indigo recognized a non-cash income tax recovery of \$14.3 million compared to recognizing a non-cash income tax recovery of \$11.9 million in the same period last year, which includes the current tax impact of adopting IFRS 16. Excluding the impact of IFRS 16, the income tax recovery increased by \$2.6 million for the same reasons discussed above.

The Company used a statutory tax rate of 26.7% to calculate the income tax recovery in the current period. Based on a full 52-week period, the Company does not expect to pay cash income taxes as it has sufficient non-capital loss carry forwards to offset anticipated taxable income. The Company has reviewed the deferred tax asset balance alongside the Company's future income projections, and concluded that the asset should continue to be recognized.

Net Loss

The Company recognized a net loss of \$20.5 million for the 13-week period ended September 28, 2019 (\$0.74 net loss per common share), compared to a net loss of \$19.1 million (\$0.70 net loss per common share) for the same period last year. The impact of adopting IFRS 16 to the net loss position was an earnings improvement of \$0.3 million. The increase in net loss was driven by increased capital asset amortization as a result of prior year investments in the Company's retail transformation and enhanced digital platforms, which offset the margin rate and cost improvements achieved.

On a fiscal year-to-date basis, the Company recognized a net loss of \$39.5 million (\$1.44 net loss per common share), compared to a net loss of \$34.5 million (\$1.28 net loss per common share) in the same period last year. The impact of adopting IFRS 16 to the net loss position was an earnings improvement of \$0.7 million. This decline in profitability was driven by the top-line decline in revenue as a result of the current competitive landscape as well as increased amortization for the same reasons discussed above.

Other Comprehensive Income (Loss)

Other comprehensive income (loss) consists primarily of gains and losses related to hedge accounting and the Company's foreign currency translation adjustments. The Company has a formal hedging policy to mitigate foreign exchange risk, entering into contracts to manage the currency fluctuation risk associated with forecasted U.S. dollar expenses, primarily for general merchandise inventory purchases. Financial instruments used to mitigate risk include foreign exchange forward contracts. All contracts entered during the quarter have been designated as cash flow hedges for accounting purposes and extend over a period not exceeding 12 months.

During the 13-week period ended September 28, 2019, the Company entered contracts with total notional amounts of C\$25.0 million to buy U.S. dollars and sell Canadian dollars. In the same period last year, the Company entered contracts with total notional amounts of C\$50.1 million. On a fiscal year-to-date basis, the Company entered contracts with total notional amounts of C\$57.8 million to buy U.S. dollars and sell Canadian dollars, compared to entering contracts with total notional amounts of C\$102.0 million in the same period last year.

As at September 28, 2019, the Company had remaining contracts in place representing a total notional amount of \$74.3 million and an unrealized net loss of \$0.1 million, compared to a total notional amount of C\$104.4 million and an unrealized net gain of \$0.5 million as at September 29, 2018. During the 13 and

26-week periods ended September 28, 2019, net gains (net of taxes) of \$0.1 million and \$0.6 million, respectively, from settled contracts were reclassified from other comprehensive income to inventory and expenses compared to reclassified net gains (net of taxes) of \$0.4 million and \$0.5 million for the same periods last year.

Seasonality and Second Quarter Results

Indigo's business is highly seasonal and follows quarterly sales and profit (loss) fluctuation patterns, which are similar to those of other retailers that are highly dependent on the November/December holiday season. A disproportionate amount of revenues and profits are earned in the third quarter. As a result, quarterly performance is not necessarily indicative of the Company's performance for the rest of the year.

The following table sets out revenue, net earnings (loss), basic and diluted earnings (loss) per share for the preceding eight fiscal quarters.

(millions of Canadian dollars, except per share data)	Fiscal quarters							
	Q2	Q1	Q4	Q3	Q2	Q1	Q4	Q3
	Fiscal 2020 ²	Fiscal 2020 ²	Fiscal 2019	Fiscal 2019	Fiscal 2019	Fiscal 2019	Fiscal 2018 ¹	Fiscal 2018 ¹
Revenue	203.4	192.6	199.2	426.0	216.3	205.4	215.4	433.3
Total net earnings (loss)	(20.5)	(19.1)	(23.8)	21.5	(19.1)	(15.4)	(10.7)	42.6
Basic earnings (loss) per share	(\$0.74)	(\$0.69)	(\$0.86)	\$0.80	(\$0.70)	(\$0.57)	(\$0.40)	\$1.58
Diluted earnings (loss) per share	(\$0.74)	(\$0.69)	(\$0.86)	\$0.79	(\$0.70)	(\$0.57)	(\$0.40)	\$1.56

¹ Balances were restated in fiscal 2019 as a result of the adoption of IFRS 15. Refer to Note 4 of the consolidated financial statements in the Company's fiscal 2019 Annual Report for additional information.

² The Company implemented IFRS 16 *Leases*, on March 31, 2019 using the modified retrospective approach. As a result, the Company's fiscal 2020 results reflect lease accounting under IFRS 16, while the comparative quarters have not been restated. Refer to the "Results of Operations" section of this MD&A to assist with year-over-year variance analysis.

Overview of Consolidated Balance Sheets

Assets

As at September 28, 2019, total assets increased \$421.6 million to \$1,068.2 million, compared to \$646.6 million as at September 29, 2018, which reflects the inclusion of the right-of-use asset as per IFRS 16 of \$420.9 million and the deferred tax impact of \$38.7 million. Excluding the impact of IFRS 16, total assets decreased by \$38.0 million. The decrease was primarily driven by a decrease in cash and cash equivalents, short term investments, and inventories, partially offset by higher property, plant and equipment, and deferred tax assets.

Cash and cash equivalents and short term investments decreased \$52.7 million compared to the same period in the prior year as cash was used to fund operations, and the capital investment program undertaken in fiscal 2019. The decrease in inventories of \$5.1 million was driven by the continuous efforts to optimize inventory levels. Deferred tax assets increased by \$14.9 million, excluding the impact of IFRS 16, primarily as a result of the net loss recognized in the previous four quarters. The net increase in property, plant and equipment of \$7.3 million was driven by the major strategic initiatives invested in towards the end of fiscal 2019.

On a fiscal year-to-date basis, total assets increased by \$457.7 million to \$1,068.2 million compared to \$610.5 million as at March 30, 2019. Excluding the impact of IFRS 16, total assets decreased by \$1.9 million. The decrease was driven by a \$61.3 million net decrease in cash and cash equivalents and short-term investments, which is consistent with the seasonal nature of the business. Net property, plant and equipment also decreased by \$8.5 million as a result of higher depreciation for the reasons discussed above. This was partially offset by an increase in inventories of \$46.1 million, which is consistent with the seasonality of the business, to support the anticipated demand during the upcoming holiday season. Accounts receivable increased by \$9.3 million, driven by a \$6.6 million loan to Calendar Club, which has subsequently been repaid as discussed in Note 15 of the unaudited interim condensed consolidated financial statements. Deferred tax assets also increased by \$14.8 million, excluding the impact of IFRS 16, primarily as a result of the year-to-date net loss recognized.

Liabilities

As at September 28, 2019, total liabilities increased \$572.1 million \$846.8 million, compared to \$274.7 million as at September 29, 2018, which includes an adjustment of \$567.9 million to liabilities since the adoption of IFRS 16, primarily from the recognition of the lease liabilities. Excluding the impact of IFRS 16, total liabilities increased by \$4.1 million to \$278.8 million. This increase was driven by a \$7.8 million increase in unredeemed gift card liability due to sustained changes in customer redemption patterns. This was partially offset by a timing related net decrease in current and long-term accounts payable and accrued liabilities of \$4.1 million, excluding the impact of IFRS 16.

On a fiscal year-to-date basis, total liabilities increased \$606.5 million to \$846.8 million compared to \$240.3 million as at March 30, 2019. Excluding the impact of IFRS 16, total liabilities increased \$38.5 million primarily driven by a \$42.6 million increase in short-term accounts payable and accrued liabilities, which is consistent with the seasonal growth in inventories leading up to the

holiday season. This was partially offset by a reduction of \$5.7 million in unredeemed gift card liabilities, as customers continued to redeem gift cards purchased during the holiday season.

Equity

Total equity at September 28, 2019 decreased \$150.4 million to \$221.4 million, compared to \$371.8 million as at September 29, 2018, which includes adjustments to retained earnings for IFRS 16 of \$108.3 million. Excluding the impact of IFRS 16, total equity decreased by \$42.0 million to \$329.8 million as a result of the net loss generated over the past four quarters.

On a fiscal year-to-date basis, total equity decreased \$148.7 million to \$221.4 million as at September 28, 2019, compared to \$370.1 million as at March 30, 2019. Excluding the impact of IFRS 16, total equity decreased by \$40.3 million to \$329.8 million, primarily due to the year-to-date net loss recognized.

The weighted average number of common shares outstanding for the second quarter of fiscal 2020 was 27,496,588 compared to 27,124,594 for the same period last year. As at November 6, 2019, the number of outstanding common shares was 27,273,961 with a book value of \$227.0 million.

Working Capital and Leverage

The Company's working capital position usually declines from the end of its fiscal year until the third fiscal quarter due to the seasonal nature of the business. The Company relies on cash and accounts payable to fund the business before generating a disproportionate amount of cash during the November/December holiday season.

The Company reported working capital of \$77.6 million as at September 28, 2019, compared to \$184.2 million as at September 29, 2018 and \$164.1 million as at March 30, 2019. Excluding the impact of IFRS 16, the Company reported working capital of \$121.7 million as at September 28, 2019. The decrease in working capital compared to the same period last year was primarily a result of the decrease in cash and cash equivalents, and short-term investments, as previously discussed.

Overview of Consolidated Statements of Cash Flows

Cash and cash equivalents decreased \$5.7 million for the 13-week period ended September 28, 2019 compared to a decrease of \$35.3 million in the same period last year. The change in the current period was driven by cash flows used in operating activities of \$2.9 million and cash flows used in financing activities of \$16.9 million, partially offset by cash flows generated from investing activities of \$13.8 million.

On a fiscal year-to-date basis, cash and cash equivalents increased \$5.3 million. The increase was driven by cash flows generated from investing activities of \$58.3 million, partially offset by cash flows used in operating activities of \$20.0 million and in financing activities of \$33.0 million.

Cash Flows Used for Operating Activities

The Company used cash flows of \$2.9 million from operating activities in the 13-week period ended September 28, 2019 compared to \$12.7 million used in the same period last year, a change of \$9.8 million. This is inclusive of the impact of IFRS 16, which had a \$16.9 million impact to cash flows used in operating activities, mainly relating to the additional depreciation and interest expense recognized. Excluding the impact of IFRS 16, the Company used cash flows for operating activities of \$19.8 million, an additional \$7.1 million compared to the prior year. This was primarily driven by the Company using \$2.1 million of cash for working capital for operations this quarter, compared to generating \$5.8 million in the same period last year. The increase in cash used for working capital related to the timing of inventory purchases for the upcoming holiday season, as well as a decrease in accounts payable and accrued liabilities.

On a fiscal year-to-date basis, cash flows used for operating activities decreased by \$27.2 million to \$20.0 million in the current period compared to \$47.2 million used in the same period last year. This is inclusive of the above mentioned impact of IFRS 16, which had a \$33.0 million impact to cash flows used in operating activities. Excluding the impact of IFRS 16, the Company used cash flows for operating activities of \$53.0 million, a change of \$5.8 million from the prior period. This was primarily a result of the decrease in adjusted EBITDA in the period.

Cash Flows From (Used for) Investing Activities

The Company generated cash flows of \$13.8 million in investing activities in the 13-week period ended September 28, 2019 compared to using \$25.1 million in the same period last year, a change of \$38.9 million. The increase was driven by the maturity of \$17.5 million of short-term investments in the period, and a smaller capital investment program in fiscal 2020.

On a fiscal year-to-date basis, the Company generated cash flows of \$58.3 million from investing activities compared to using \$46.7 million in the same period last year, a change of \$105.0 million. The increase was driven by the same reasons discussed above, including the maturity of \$66.7 million of short-term investments in the period.

Cash was used for capital projects as follows:

(millions of Canadian dollars)	13-week period ended September 28, 2019	13-week period ended September 29, 2018	26-week period ended September 28, 2019	26-week period ended September 29, 2018
Construction, renovations, and equipment	1.1	19.3	3.6	36.0
Intangible assets (primarily application software and internal development costs)	2.4	5.1	4.9	10.2
Technology equipment	0.3	1.2	0.6	2.3
Total	3.8	25.6	9.1	48.5

Cash Flows From (Used for) Financing Activities

The Company used cash flows of \$16.9 million for financing activities in the 13-week period ended September 28, 2019 compared to cash flows generated of \$2.1 million in the same period last year, a change of \$19.0 million. All cash flows used for financing activities in the current period were the impact of IFRS 16. Excluding the impact of IFRS 16, the Company had no cash flow financing activities as no share-based compensation options were exercised in the current period.

On a fiscal year-to-date basis, the Company used cash flows of \$33.0 million for financing activities, compared to generating cash flows of \$2.8 million in the same period last year, which is inclusive of the impact of IFRS 16. Excluding the impact of IFRS 16, the Company had no cash flows from financing activities.

Liquidity and Capital Resources

The Company has a highly seasonal business that generates a significant portion of its revenue and cash flows during the November/December holiday season. The Company has minimal accounts receivable and a majority of book products are purchased on trade terms with the right to return. The Company's main sources of capital are cash flows generated from operations, cash and cash equivalents, and short-term investments.

Based on the Company's liquidity position and cash flow forecast, management expects its current cash position and future cash flows generated from operations to be sufficient to meet its working capital needs for fiscal 2020. In addition, the Company has the ability to reduce capital spending if necessary; however, a long-term decline in capital expenditures may negatively impact revenue and profit growth.

Accounting Policies

Critical Accounting Judgments and Estimates

The discussion and analysis of Indigo's operations and financial condition are based upon the unaudited interim condensed consolidated financial statements which have been prepared in accordance with IAS 34. The preparation of these unaudited interim condensed consolidated financial statements in conformity with IFRS requires management to undertake a number of judgments and estimates about the recognition and measurement of assets, liabilities, revenues, and expenses. These judgments and estimates are based on management's historical experience and other assumptions which the Company believes to be reasonable under the circumstances. Actual results may differ from the judgments and estimates made by management, and actual results will seldom equal estimates.

Material judgments and estimates are made with respect to: revenue recognition from unredeemed gift cards and Plum points; fair value of Plum points; inventory shrinkage; reserves for slow-moving or damaged products and products that have been permanently marked down; vendor settlement; fair value of share-based instruments and number of equity instruments expected to vest; identification of cash generating units ("CGUs") and expected future cash flows from CGUs; depreciation and amortization periods; lease recognition and measurement; and recognition and valuation of deferred tax assets.

The Company evaluates its judgments and estimates on an ongoing basis and methods used to calculate critical accounting estimates are consistent with prior periods, except as noted. The significant accounting policies and significant judgments and estimates of the Company are described in notes 3 and 4 of the consolidated financial statements contained in the Company's fiscal 2019 Annual Report.

Accounting Standards Implemented in Fiscal 2020

IFRS 16 Leases

Effective in the first quarter of fiscal 2020, the Company adopted IFRS 16, which introduces a single lessee accounting model, eliminating the distinction between operating and finance leases. IFRS 16 is effective for annual reporting periods beginning on or after January 1, 2019 and supersedes IAS 17.

The Company adopted the standard on March 31, 2019, applying the requirements using the modified retrospective transition method, with the cumulative effect recognized in retained earnings. Prior year figures were not restated, as permitted under the transition provisions in the standard, and continue to be reported under IAS 17. The adoption of IFRS 16 has resulted in the recognition of right-of-use assets and lease liabilities for substantially all operating leases where the company is a lessee.

The following table summarizes the adjustments to opening balances resulting from the initial adoption of IFRS 16:

(millions of Canadian dollars)	As at March 30, 2019 IAS 17	IFRS 16 Adjustment	As at March 31, 2019 IFRS 16
Assets			
Right-of-use assets	–	407.5	407.5
Deferred tax assets	47.9	38.9	86.8
Liabilities			
Accounts payable and accrued liabilities	179.2	1.2	180.4
Short-term lease liabilities	–	43.1	43.1
Long-term accrued liabilities	4.7	(3.5)	1.2
Long-term lease liabilities	–	514.7	514.7
Equity			
Retained earnings	131.3	(109.1)	22.2

Upon adoption of IFRS 16, the Company recognized lease liabilities in relation to leases which had previously been classified as operating leases under the principles of IAS 17. These liabilities are measured at the present value of the remaining fixed lease payments, discounted using the Company's incremental borrowing rate as of March 31, 2019. The weighted average rate applied to the lease liabilities recognized in the consolidated balance sheet as at March 31, 2019 was 4.52 percent.

The associated right-of-use assets were primarily measured as if the standard had been applied since the commencement date of the lease, but discounted using the Company's incremental borrowing rate at the date of initial application.

In applying IFRS 16, the Company has used the following practical expedients permitted by the standard:

- the exclusion of short-term leases and contracts for which the underlying asset is of low value,
- the exclusion of initial direct costs from the right-of-use assets on transition,
- the treatment of lease and non-lease components as a single lease component for the real estate class of assets,
- the onerous lease provisions recognized as at March 30, 2019 as an alternative to performing an impairment review on right-of-use assets as at March 31, 2019,
- the use of hindsight in determining lease term at the date of initial application,
- and the use of a single discount rate for a portfolio of leases with reasonably similar underlying characteristics.

The impact on the Company's statement of loss for the 13 and 26-week periods ended September 28, 2019 is outlined in the Results of Operations section of this MD&A to assist with year-over-year variance analysis.

On completion of the IFRS 16 implementation, the Company updated its lease accounting policies as follows:

The Company assesses whether a contract is or contains a lease at the inception of the contract. Leases are recognized as a right-of-use asset and corresponding lease liability at the lease commencement date. The lease liability is measured at the present value of the future lease payments, less any lease incentives receivable, discounted using the lessee's incremental borrowing rate, unless the implicit interest rate in the lease can be easily determined. Lease liabilities are subsequently measured at amortized cost using the effective interest rate method.

Lease terms applied are the contractual non-cancellable periods for which the Company has the right to use an underlying asset, together with periods covered by an option to extend or terminate, if the Company is reasonably certain to exercise those options. Lease liabilities are remeasured (with a corresponding adjustment to the right-of-use asset) when there is a change in the lease term, a change in the future lease payments resulting from a change in an index or rate used to determine those payments, or when the lease contract is modified and the lease modification is not accounted for as a separate lease.

The right-of-use assets include the initial measurement of the corresponding lease liabilities, lease payments at or before the commencement date, any initial direct costs, less any lease incentives received before the commencement date. The right-of-use assets are subsequently measured at cost and are depreciated on a straight-line basis over the lease term from the date the underlying asset is available for use.

Variable lease payments that do not meet IFRS 16 measurement parameters are not included in the measurement of the lease liabilities and are recognized in cost of operations and selling, administrative, and other expenses as incurred.

Disclosure Controls and Procedures

Management is responsible for establishing and maintaining a system of disclosure controls and procedures to provide reasonable assurance that all material information relating to the Company is gathered and reported on a timely basis to senior management, including the Chief Executive Officer ("CEO") and Chief Financial Officer ("CFO"), so that appropriate decisions can be made by them regarding public disclosure.

As required by National Instrument 52-109, "Certification of Disclosure in Issuers' Annual and Interim Filings," the CEO and CFO have evaluated, or caused

to be evaluated under their supervision, the effectiveness of such disclosure controls and procedures.

Internal Controls over Financial Reporting

Management is also responsible for establishing and maintaining adequate internal controls over financial reporting to provide reasonable assurance regarding the reliability of financial reporting and the preparation of consolidated financial statements for external purposes in accordance with International Financial Reporting Standards.

All internal control systems, no matter how well designed, have inherent limitations. Therefore, even those systems determined to be effective can provide only reasonable assurance with respect to consolidated financial statement preparation and presentation. Additionally, management is necessarily required to use judgment in evaluating controls and procedures.

As required by National Instrument 52-109, “Certification of Disclosure in Issuers’ Annual and Interim Filings,” the CEO and CFO have evaluated, or caused to be evaluated under their supervision, the effectiveness of such internal controls over financial reporting using the framework established in the Internal Control – Integrated Framework (“COSO Framework”) published in 2013 by the Committee of Sponsoring Organizations of the Treadway Commission.

Changes in Internal Controls over Financial Reporting

Management has also evaluated whether there were changes in the Company’s internal controls over financial reporting that occurred during the period beginning on June 30, 2019 and ended on September 28, 2019 that have materially affected, or are reasonably likely to materially affect, the Company’s internal controls over financial reporting. The Company has determined that no material changes in internal controls over financial reporting have occurred in this period.

Cautionary Statement Regarding Forward-Looking Statements

The above discussion includes forward-looking statements. All statements other than statements of historical facts included in this discussion that address activities, events, or developments that the Company expects or anticipates will or may occur in the future are forward-looking statements. These statements are based on certain assumptions and analyses made by the Company in light of its experience, analysis, and its perception of historical trends, current conditions, and expected future developments as well as other factors it believes are appropriate in the circumstances. However, whether actual results and developments will conform to the expectations and predictions of the Company is subject to a number of risks and uncertainties, including the general economic, market, or

business conditions; competitive actions by other companies; changes in laws or regulations; and other factors, many of which are beyond the control of the Company. Consequently, all of the forward-looking statements made in this discussion are qualified by these cautionary statements and there can be no assurance that results or developments anticipated by the Company will be realized or, even if substantially realized, that they will have the expected consequences to, or effects on, the Company.

Non-IFRS Financial Measures

The Company prepares its unaudited interim condensed consolidated financial statements in accordance with International Financial Reporting Standards (“IFRS”). To provide additional insight into the business, the Company has also provided non-IFRS data, including comparable sales and adjusted EBITDA, in the discussion and analysis section above. These measures are specific to Indigo and have no standardized meaning prescribed by IFRS. Therefore, these measures may not be comparable to similar measures presented by other companies. The adoption of IFRS 16 in fiscal 2020 hinders the comparability of underlying performance with periods prior to the accounting standard adoption. A reconciliation of the IFRS 16 impact on the current year period was included in this report to reconcile adjusted EBITDA and reported net loss as stated in the Company’s interim condensed consolidated financial statements to their values excluding the impact of the new accounting standard.

Total comparable sales (including online), comparable retail store sales, and adjusted EBITDA are key indicators used by the Company to measure performance against internal targets and prior period results. These measures are commonly used by financial analysts and investors to compare the Company to other retailers.

Total comparable sales is based on comparable retail store sales and includes online sales for the same period. Comparable retail store sales are based on a 52-week fiscal year and defined as sales generated by stores that have been open for more than 52 weeks. These measures exclude sales fluctuations due to store openings and closings, significant renovations, permanent relocation, and material changes in square footage. Both measures are key performance indicators for the Company. Adjusted EBITDA is defined as earnings before interest, taxes, depreciation, amortization, impairment, asset disposals, and equity investments. The method of calculating adjusted EBITDA is consistent with that used in prior periods.

Reconciliations between total comparable sales, comparable retail store sales, and revenue (the most comparable IFRS measure), and between adjusted EBITDA and loss before income taxes (the most comparable IFRS measure) were included earlier in this report.

NOTICE OF NO AUDITOR REVIEW OF INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Under National Instrument 51-102, Part 4, subsection 4.3(3)(a), if an auditor has not performed a review of the interim condensed consolidated financial statements, they must be accompanied by a notice indicating that the financial statements have not been reviewed by an auditor.

The accompanying unaudited interim condensed consolidated financial statements of the Company have been prepared by and are the responsibility of the Company's management.

The Company's independent auditor has not performed a review of these interim condensed consolidated financial statements.

Notes to Consolidated Financial Statements

September 28, 2019

(Unaudited)

1. CORPORATE INFORMATION

Indigo Books & Music Inc. (the “Company” or “Indigo”) is a corporation domiciled and incorporated under the laws of the Province of Ontario in Canada. The Company’s registered office is located at 620 King Street West, Suite 400, Toronto, Ontario, M5V 1M6, Canada. The unaudited interim condensed consolidated financial statements of the Company comprise the Company and its wholly-owned subsidiaries, Indigo Design Studio, Inc., Indigo Cultural Department Store Inc. (“Indigo U.S.”), and YYZ Holdings Inc. (“YYZ”), along with equity investments in Calendar Club of Canada Limited Partnership (“Calendar Club”), and Unplug Meditation, LLC (“Unplug”). The Company is the ultimate parent of the consolidated organization.

2. BASIS OF PREPARATION

Statement of Compliance

These unaudited interim condensed consolidated financial statements have been prepared using accounting policies consistent with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”) and in accordance with International Accounting Standard (“IAS”) 34, “Interim Financial Reporting.” The same accounting policies and methods of computation as those used in the preparation of the fiscal 2019 Annual Report were followed in the preparation of these unaudited interim condensed consolidated financial statements, except as noted. These statements reflect the adoption of IFRS 16 *Leases*, on March 31, 2019 using the modified retrospective method, with the cumulative effect initially recognized in retained earnings, with no restatement of prior comparative period. Please see “Adoption of IFRS 16” for further information. These unaudited interim condensed consolidated financial statements should be read in conjunction with the Company’s fiscal 2019 Annual Report.

The unaudited interim condensed consolidated financial statements for the 13 and 26-week periods ended September 28, 2019 (including comparatives) were approved by the Board of Directors on November 6, 2019.

Significant Judgments and Estimates

The preparation of these unaudited interim condensed consolidated financial statements in conformity with IFRS requires management to undertake a number of judgments and estimates about the recognition and measurement of assets, liabilities, revenues, and expenses. These judgments and estimates are based on management's historical experience and other assumptions which the Company believes to be reasonable under the circumstances. Actual results may differ from the judgments and estimates made by management, and actual results will seldom equal estimates.

Material judgments and estimates are made with respect to: revenue recognition from unredeemed gift cards and Plum rewards program ("Plum") points; fair value of Plum points; inventory shrinkage; reserves for slow-moving or damaged products and products that have been permanently marked down; vendor settlement; fair value of share-based instruments and number of equity instruments expected to vest; identification of cash generating units ("CGUs") and expected future cash flows from CGUs; depreciation and amortization periods; lease recognition and measurement; and recognition and valuation of deferred tax assets.

3. CHANGES IN ACCOUNTING POLICIES

These interim unaudited condensed consolidated financial statements have been prepared using the accounting policies as outlined in note 4 of the fiscal 2019 Annual Report, with the exception of the accounting standards adopted in the year ending March 28, 2020. The Company has not early adopted any other standard, interpretation or amendment that has been issued but is not yet effective.

Changes to significant accounting policies are described below.

IFRS 16 Leases

Effective in the first quarter of fiscal 2020, the Company adopted IFRS 16, which introduces a single lessee accounting model, eliminating the distinction between operating and finance leases. IFRS 16 is effective for annual reporting periods beginning on or after January 1, 2019 and supersedes IAS 17.

The Company adopted the standard on March 31, 2019, applying the requirements using the modified retrospective transition method, with the cumulative effect recognized in retained earnings. Prior year figures were not restated, as permitted under the transition provisions in the standard, and continue to be reported under IAS 17. The adoption of IFRS 16 has resulted in the recognition of right-of-use assets and lease liabilities for substantially all operating leases where the company is a lessee.

The following table summarizes the adjustments to opening balances resulting from the initial adoption of IFRS 16:

(millions of Canadian dollars)	As at March 30, 2019 IAS 17	IFRS 16 Adjustment	As at March 31, 2019 IFRS 16
Assets			
Right-of-use assets	–	407.5	407.5
Deferred tax assets	47.9	38.9	86.8
Liabilities			
Accounts payable and accrued liabilities	179.2	1.2	180.4
Short-term lease liabilities	–	43.1	43.1
Long-term accrued liabilities	4.7	(3.5)	1.2
Long-term lease liabilities	–	514.7	514.7
Equity			
Retained earnings	131.3	(109.1)	22.2

Upon adoption of IFRS 16, the Company recognized lease liabilities in relation to leases which had previously been classified as operating leases under the principles of IAS 17. These liabilities are measured at the present value of the remaining fixed lease payments, discounted using the Company's incremental borrowing rate as of March 31, 2019. The weighted average rate applied to the lease liabilities recognized in the consolidated balance sheet as at March 31, 2019 was 4.52 percent.

The associated right-of-use assets were primarily measured as if the standard had been applied since the commencement date of the lease, but discounted using the Company's incremental borrowing rate at the date of initial application.

In applying IFRS 16, the Company has used the following practical expedients permitted by the standard:

- the exclusion of short-term leases and contracts for which the underlying asset is of low value,
- the exclusion of initial direct costs from the right-of-use assets on transition,
- the treatment of lease and non-lease components as a single lease component for the real estate class of assets,
- the onerous lease provisions recognized as at March 30, 2019 as an alternative to performing an impairment review on right-of-use assets as at March 31, 2019,
- the use of hindsight in determining lease term at the date of initial application,
- and the use of a single discount rate for a portfolio of leases with reasonably similar underlying characteristics.

The following table reconciles the operating lease commitments as at March 30, 2019 to the opening balance of lease liabilities as at March 31, 2019:

(millions of Canadian dollars)	Lease Liabilities
Operating lease commitments as at March 30, 2019	404.6
Adjustments as a result of different treatment of extension options and non-lease components	401.3
Adjustments as a result of short-term and low value asset leases exemptions	(13.1)
Effect of discounting using the Company's incremental borrowing rate	(239.7)
Contracts outside IAS 17 scope included in IFRS 16 Lease definition	4.8
Lease liabilities recognized as at March 31, 2019	557.9

On completion of the IFRS 16 implementation, the Company updated its lease accounting policies as follows:

The Company assesses whether a contract is or contains a lease at the inception of the contract. Leases are recognized as a right-of-use asset and corresponding lease liability at the lease commencement date. The lease liability is measured at the present value of the future lease payments, less any lease incentives receivable, discounted using the lessee's incremental borrowing rate, unless the implicit interest rate in the lease can be easily determined. Lease liabilities are subsequently measured at amortized cost using the effective interest rate method.

Lease terms applied are the contractual non-cancellable periods for which the Company has the right to use an underlying asset, together both with periods covered by an option to extend or terminate, if the Company is reasonably certain to exercise those options. Lease liabilities are remeasured (with a corresponding adjustment to the right-of-use asset) when there is a change in the lease term, a change in the future lease payments resulting from a change in an index or rate used to determine those payments, or when the lease contract is modified and the lease modification is not accounted for as a separate lease.

The right-of-use assets include the initial measurement of the corresponding lease liabilities, lease payments at or before the commencement date, any initial direct costs, less any lease incentives received before the commencement date. The right-of-use assets are subsequently measured at cost and are depreciated on a straight-line basis over the lease term from the date the underlying asset is available for use.

Variable lease payments that do not meet IFRS 16 measurement parameters are not included in the measurement of the lease liabilities and are recognized in cost of operations and selling, administrative, and other expenses as incurred.

4. SEASONALITY OF OPERATIONS

The business of Indigo follows a seasonal pattern, with sales of merchandise being highest in the third fiscal quarter due to consumer holiday buying patterns. As a result, a disproportionate portion of total annual revenue is typically earned in the third fiscal quarter. Therefore, the results of operations for the 13 and 26-week periods ended September 28, 2019 and September 29, 2018 are not indicative of the results of other periods.

5. CASH, CASH EQUIVALENTS, AND SHORT-TERM INVESTMENTS

Cash and cash equivalents consist of the following:

(thousands of Canadian dollars)	September 28, 2019	September 29, 2018	March 30, 2019
Cash	45,268	27,801	39,466
Restricted cash	1,212	1,593	1,593
Cash equivalents	135	30,229	231
Cash and cash equivalents	46,615	59,623	41,290

Restricted cash represents cash pledged as collateral for letter of credit obligations issued to support the Company's purchases of offshore merchandise.

As at September 28, 2019, the Company held short-term investments of \$20.5 million (September 29, 2018 – \$60.2 million; March 30, 2019 – \$87.2 million). Short-term investments consist of guaranteed investment securities with an original maturity date greater than 90 days and remaining term to maturity of less than or equal to 365 days from the date of acquisition. These investments are non-redeemable until the maturity date, and therefore they are classified separately from cash and cash equivalents.

6. INVENTORIES

The cost of inventories recognized as an expense during the 13 and 26-week periods ended September 28, 2019 were \$116.1 million and \$224.7 million, respectively (2018: 13 weeks – \$125.2 million; 26 weeks – \$241.9 million). Inventories consist of the landed cost of goods sold and exclude inventory shrink and damage reserve, and all vendor support programs. The amount of inventory write-downs as a result of net realizable value lower than cost during the 13 and 26-week periods ended September 28, 2019 were \$3.7 million and \$5.4 million, respectively (2018: 13 weeks – \$4.1 million; 26 weeks – \$6.3 million). The amount of inventory with net realizable value equal to cost was \$4.5 million as at September 28, 2019 (September 29, 2018 – \$3.2 million).

7. DERIVATIVE FINANCIAL INSTRUMENTS

The Company uses derivative financial instruments, such as foreign exchange forward contracts, to manage the currency fluctuation risk associated with forecasted U.S. dollar payments, primarily for general merchandise inventory purchases. These contracts have been designated as cash flow hedges for accounting purposes. The fair values of derivative financial instruments are determined based on observable market information as well as valuations determined by external valuers with experience in financial markets.

During the 13 and 26-week periods ended September 28, 2019, the Company entered into forward contracts with total notional amounts of C\$25.0 million and C\$57.8 million, respectively, to purchase U.S. dollar/Canadian dollar currency pair forwards (2018: 13 weeks – C\$50.1 million; 26 weeks – C\$102.0 million). As at September 28, 2019, the Company had remaining contracts in place representing a total notional amount of C\$74.3 million (September 29, 2018 – C\$104.4 million) at an average forward rate of 1.32 (September 29, 2018 – 1.28). These contracts extend over a period not exceeding 12 months. There were no forecast transactions for which hedge accounting had been used in the previous period, but which were no longer expected to occur, or hedging relationships discontinued and restarted during the 13 and 26-week periods ended September 28, 2019, as well as in the prior year.

The total fair value of the contracts as at September 28, 2019 resulted in the recognition of a derivative asset of \$0.1 million (September 29, 2018 – \$0.6 million; March 30, 2019 – \$1.1 million), and a derivative liability of \$0.2 million (September 29, 2018 – \$0.1 million; March 30, 2019 – \$0.0 million).

For the 13 and 26-week periods ended September 28, 2019, the Company had a net gain (net of taxes) of \$0.8 million and a net loss (net of taxes) of \$0.3 million, respectively, from the change in fair value of outstanding cash flow hedges (2018: 13 weeks – net loss of \$1.5 million; 26 weeks – net gain of \$0.0 million). During the same periods, the Company reclassified net gains (net of taxes) from settled contracts of \$0.1 million and \$0.6 million, respectively, from other comprehensive income to inventory and expenses (2018: 13 weeks – net gain of \$0.4 million; 26 weeks – net gain of \$0.5 million). This resulted in other comprehensive income of \$0.6 million and an other comprehensive loss of \$0.8 million for the 13 and 26-week periods ended September 29, 2018, respectively (2018: 13 weeks – loss of \$1.9 million; 26 weeks – loss of \$0.5 million).

Reclassified amounts resulting from hedge ineffectiveness, as well as any realized foreign exchange amounts as a result of derivative financial instruments were both immaterial in the quarters ended September 28, 2019 and September 29, 2018.

8. LEASE LIABILITY

The following table reconciles the change in lease liabilities for the 13-week period ended September 28, 2019:

(millions of Canadian dollars)	Lease Liabilities
Balance as at June 30, 2019	561.9
Lease renewals included in the scope of IFRS 16	19.4
Accretion of lease liabilities	6.3
Repayment of interest and principle on lease liabilities	(16.9)
Balance as at September 28, 2019	570.7

The following table reconciles the change in lease liabilities for the 26-week period ended September 28, 2019:

(millions of Canadian dollars)	Lease Liabilities
Balance as at March 31, 2019	557.8
Lease renewals included in the scope of IFRS 16	33.5
Accretion of lease liabilities	12.4
Repayment of interest and principle on lease liabilities	(33.0)
Balance as at September 28, 2019	570.7

9. SHARE CAPITAL

Share capital consists of the following:

	26-week period ended September 28, 2019		26-week period ended September 29, 2018		52-week period ended March 30, 2019	
	Number of shares	Amount C\$ (thousands)	Number of shares	Amount C\$ (thousands)	Number of shares	Amount C\$ (thousands)
Balance, beginning of period	27,136,386	225,531	26,800,609	221,854	26,800,609	221,854
Issued during the period						
Directors' deferred share units converted	137,575	1,455	4,021	60	4,021	60
Adjustment for share exchange per 2001 merger agreement	–	–	519	–	519	–
Options exercised	–	–	317,337	3,446	331,237	3,617
Balance, end of period	27,273,961	226,986	27,122,486	225,360	27,136,386	225,531

10. SHARE-BASED COMPENSATION

As at September 28, 2019, 2,384,113 stock options were outstanding with exercise prices ranging from \$6.60 to \$18.40. Of these outstanding stock options, 1,036,088 were exercisable at a weighted average exercise price of

\$15.60. As at September 29, 2018, there were 1,990,013 stock options outstanding of which 788,553 were exercisable.

The Company uses the fair value method of accounting for stock options, which estimates the fair value of the stock options granted on the date of grant, net of estimated forfeitures, and expenses this value over the vesting period. During the 13 and 26-week periods ended September 28, 2019, the pre-forfeiture value of the options were \$1.0 million and \$1.3 million (2018: 13 weeks, 26 weeks – \$1.8 million).

The fair value of the employee stock options is estimated at the date of grant using the Black-Scholes option pricing model with the following weighted average assumptions during the periods presented:

	13-week period ended September 28, 2019	13-week period ended September 29, 2018
Black-Scholes option pricing assumptions		
Risk-free interest rate	1.3%	1.3%
Expected volatility	33.2%	31.4%
Expected time until exercise	2.5 years	3.0 years
Expected dividend yield	–	–
Other assumptions		
Forfeiture rate	26.7%	27.1%

Directors' Compensation

The Company has established a Directors' Deferred Share Unit Plan ("DSU Plan"). Under the DSU Plan, Directors annually elect whether to receive their annual retainer fees and other Board-related compensation in the form of deferred share units ("DSUs") or receive up to 50% of this compensation in cash. All Directors' compensation during the 13 and 26-week periods ended September 28, 2019 was in the form of DSUs (2018 – all DSUs).

The number of shares reserved for issuance under this plan is 500,000. During the 13 and 26-week periods ended September 28, 2019, the Company issued 12,947 DSUs with a value of \$0.1 million and 23,651 DSUs with a value of \$0.2 million, respectively (2018: 13 weeks – 6,839 DSUs with a value of \$0.1 million; 26 weeks – 12,089 DSUs with a value of \$0.2 million). The number of DSUs to be issued to each Director is based on a set fee schedule. The grant date fair value of the outstanding DSUs as at September 28, 2019 was \$4.3 million (September 29, 2018 – \$3.9 million) and was recorded in contributed surplus. The fair value of DSUs is equal to the traded price of the Company's common shares on the grant date.

11. SUPPLEMENTARY OPERATING INFORMATION

Set out below is the disaggregation of the Company's revenue from contracts with customers.

The following table summarizes net revenue by product line:

(thousands of Canadian dollars)	13-week period ended September 28, 2019	13-week period ended September 29, 2018	26-week period ended September 28, 2019	26-week period ended September 29, 2018
Print ¹	120,957	127,273	235,782	245,625
General merchandise ²	77,961	83,490	152,535	165,155
Other ³	4,446	5,551	7,603	10,909
Total	203,364	216,313	395,920	421,689

¹ Includes books, magazines, newspapers, and related shipping revenue.

² Includes lifestyle, paper, toys, electronics, eReaders, eReader accessories, and related shipping revenue.

³ Includes cafés, rewards, gift card breakage, Plum breakage, corporate sales, and Kobo revenue share.

The following table summarizes net revenue by channel:

(thousands of Canadian dollars)	13-week period ended September 28, 2019	13-week period ended September 29, 2018	26-week period ended September 28, 2019	26-week period ended September 29, 2018
Superstores	143,077	146,366	278,586	284,785
Small format stores	26,342	30,747	51,476	58,570
Online (including store kiosks)	29,499	33,649	58,255	67,425
Other	4,446	5,551	7,603	10,909
Total	203,364	216,313	395,920	421,689

Supplemental operating and administrative expenses information:

(thousands of Canadian dollars)	13-week period ended September 28, 2019	13-week period ended September 29, 2018	26-week period ended September 28, 2019	26-week period ended September 29, 2018
Wages, salaries, and bonuses	46,455	48,022	91,469	93,451
Short-term benefits expense	4,797	4,879	10,432	10,614
Termination benefits expense	1,054	664	2,944	1,191
Retirement benefits expense	447	459	892	930
Share-based compensation	373	487	621	976
Total employee benefits expense	53,126	54,511	106,358	107,162

Termination benefits arise when the Company terminates certain employment agreements.

12. LOSS PER SHARE

Loss per share is calculated based on the weighted average number of shares outstanding during the period. The Company's stock options were anti-dilutive as the company reported a loss and, therefore, were not included in the September 28, 2019 and September 29, 2018 diluted loss per share calculations.

13. STATEMENTS OF CASH FLOWS

Supplemental cash flow information:

14. RELATED PARTY TRANSACTIONS

The Company's related parties include its key management personnel, shareholders, defined contribution retirement plan, equity investments in associates, and subsidiaries. Unless otherwise stated, none of the transactions incorporate special terms and conditions and no guarantees were given or received. Outstanding balances are usually settled in cash.

Transactions with Key Management Personnel

Key management of the Company includes members of the Board of Directors as well as members of the Executive Committee. Key management personnel remuneration includes the following:

(thousands of Canadian dollars)	13-week period ended September 28, 2019	13-week period ended September 29, 2018	26-week period ended September 28, 2019	26-week period ended September 29, 2018
Wages, salaries, and bonus	1,619	1,946	3,195	3,965
Short-term benefits expense	33	43	68	82
Termination benefits expense	—	—	793	—
Retirement benefits expense	16	20	36	39
Share-based compensation	514	303	609	641
Directors' compensation	73	96	157	185
Total remuneration	2,255	2,408	4,858	4,912

Transactions with Shareholders

During the second quarter of fiscal 2020, the Company purchased goods and services from companies in which Mr. Gerald W. Schwartz, who is the controlling shareholder of Indigo, holds a controlling or significant interest. During the 13 and 26-week periods ended September 28, 2019, the Company paid \$0.4 million and \$0.7 million, respectively for these transactions (2018: 13 weeks – \$1.3 million; 26 weeks – \$2.1 million). As at September 28, 2019, Indigo did not have an outstanding payable to these companies, but holds \$1.0 million of restricted cash pledged as collateral for letter of credit obligations issued to support the Company's purchases of merchandise from these companies (September 29, 2018 – no outstanding payable and \$1.0 million restricted cash). All transactions were measured at fair market value and were in the normal course of business, under normal commercial terms, for both Indigo and the related companies.

Transactions with Defined Contribution Retirement Plan

The Company's transactions with the defined contribution retirement plan include contributions paid to the retirement plan as disclosed in note 11.

The Company has not entered into other transactions with the retirement plan.

Transactions with Associates

Calendar Club is a seasonal operation that is dependent on the November/December holiday season to generate revenue. During the year, the Company loans cash to Calendar Club for working capital requirements and Calendar Club repays the loans once profits are generated in the third quarter. In the 13 and 26-week periods ended September 28, 2019, Indigo loaned \$5.2 million and \$6.6 million, respectively to Calendar Club (2018: 13 weeks – \$8.0 million; 26 weeks – \$12.3 million).

The Company had immaterial transactions with Unplug during the period.

15. SUBSEQUENT EVENTS

On October 22, 2019, the Company sold its equity investment in Calendar Club of Canada Limited Partnership and Calendar Club of Canada Ltd. (the general partner of the partnership) to Paris Southern Lights Inc., (a minority partner in the partnership.) The financial impact of the transaction consists of proceeds of \$1.8 million and the repayment of the outstanding loan receivable of \$6.6 million.
